

Fun With

Foodella

Fun with Foodella

Fun with Foodella is a nutrition education activity book designed for second grade students. This is the second major revision of the original *Food Fun with Foodella*, which was undertaken as a pilot project by seven South Dakota elementary school teachers in the summer of 1975 to strengthen nutrition education for students at the second grade level. The first revision occurred in 1992. This revision and reprinting was initiated at the prompting of elementary teachers who had previously used the workbook in their classes. The 2006 *Fun with Foodella* follows the updated food guidance system known as MyPyramid introduced by the U.S. Department of Agriculture in 2005.

Using the Teacher's Guide

The *Fun with Foodella Teacher's Guide* provides the objectives and directions for each unit of the *Fun with Foodella* workbook. The directions include the background information necessary to teach each unit. Also, for each unit, additional ideas/activities are provided to further enhance and reinforce the student's learning.

Please be aware that by nature websites and web addresses change over the course of time. Hopefully we have provided enough background with each website given that you will be able to find additional information as necessary.

Acknowledgements

The researching, writing and graphics necessary to move *Fun with Foodella* into the electronic age as well as make it compatible with the U.S. Department of Agriculture's MyPyramid, involved time and input from a myriad of people. It involved individuals from the South Dakota departments of Health and Education, South Dakota State University, Lower Brule Community College and the private sector. Of special note are contributing writers Karlys Wells, Extension Assistant NN/TN, Cooperative Extension Service, South Dakota State University, and Amy Richards, MS, RD, LN, South Dakota Department of Education

Nancy Gordon of Pierre is the graphic artist who worked so diligently on the drawings for the student workbook and Diane Philen, Dean of Arts and Sciences, Lower Brule Community College is the primary writer for the teacher's guide.

This project has been funded in part with federal funds from the U.S. Department of Agriculture. The contents of this publication do not necessarily reflect the view or policies of the U.S. Department of Agriculture, nor does mention of trade names, commercial products, or organizations imply endorsement by the U.S. Government.

This publication was supported by Cooperative Agreement number U87/CCU822626-04 from the Division of Adolescent and School Health, Centers for Disease Control and Prevention.

"In accordance with Federal law and U.S. Department of Agriculture policy, this institution is prohibited from discriminating on the basis of race, color, national origin, sex, age or disability.

Max was at the zoo. The zoo was his most favorite place in the whole wide world. At the zoo he could be anything he wanted to be AND there was plenty of food.

Max liked the elephants best.

One day at the elephant yard, Max met Foodella.

That is how Max began his adventure in learning about food. Why don't you come along!

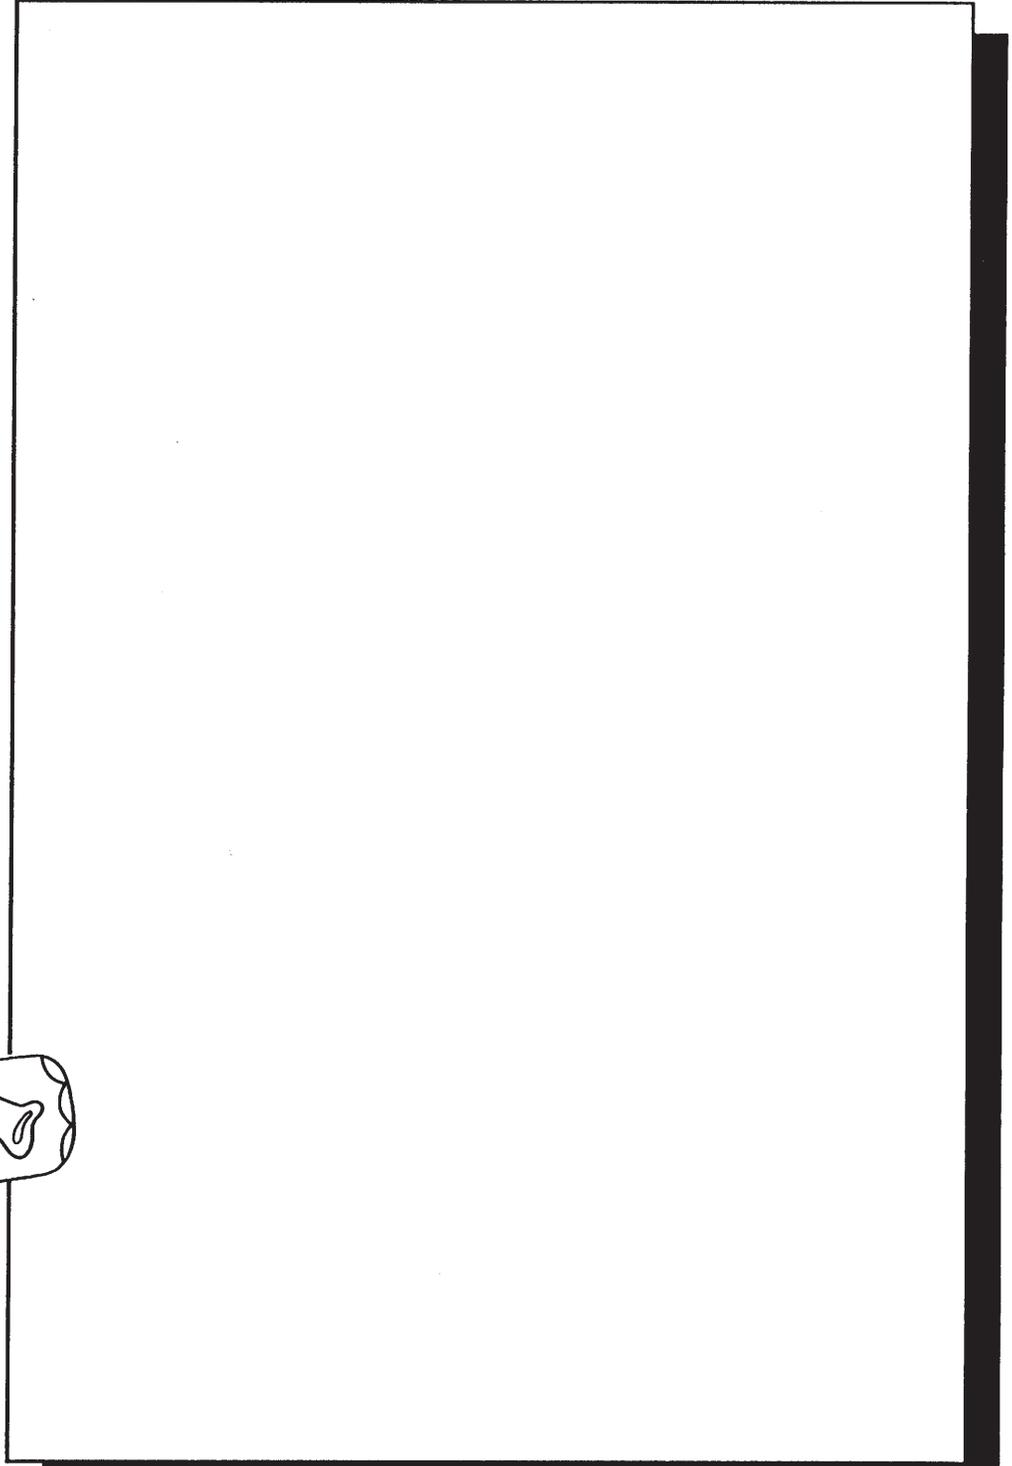

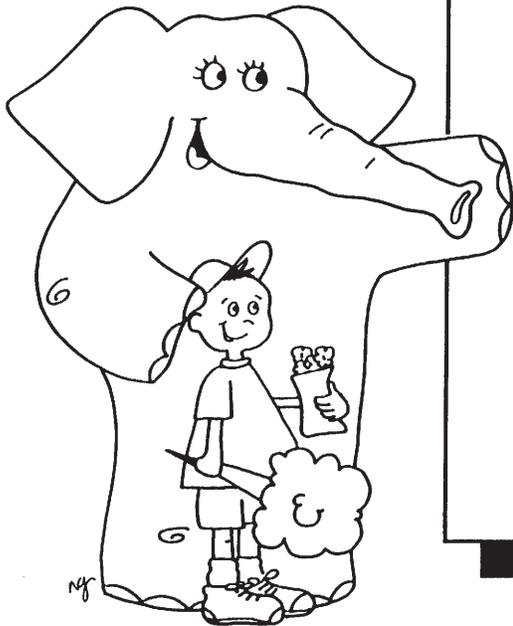

Unit 1:

Eating Right is Fun!

Not long ago, I
ate everything in
sight. I was a
very grumpy,
slow elephant.

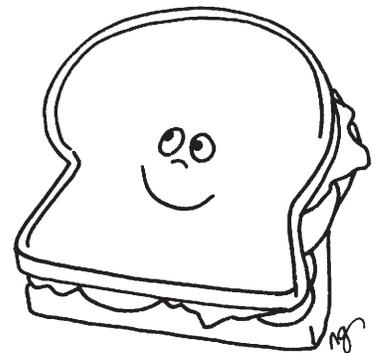

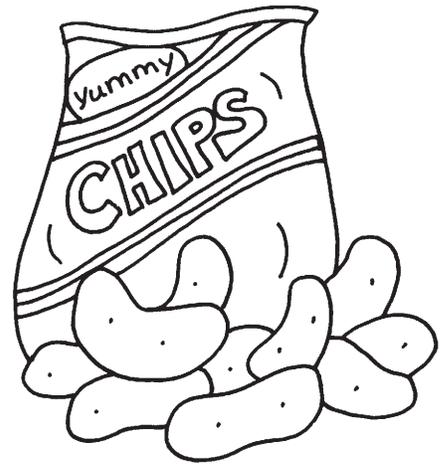

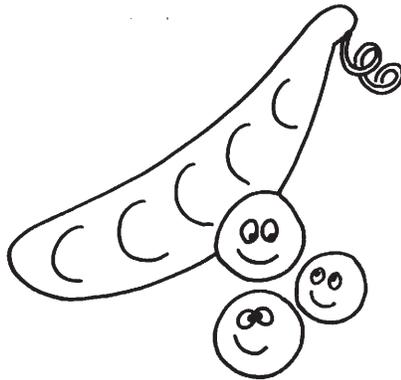

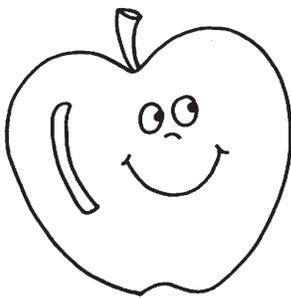

Now I eat right.
I feel better.
I play harder.
I think smarter.

Draw, write, or cut and paste your favorite foods.

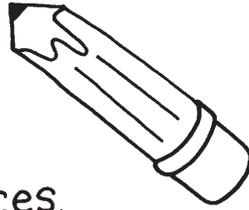

There is no good or bad food.
We should eat more fruits,
Vegetables, and foods that make our
bodies healthy. We should eat
Some foods, like potato chips, only once in awhile.

Circle the foods that make our bodies healthy.
Place an "X" on the foods we should eat only once in awhile.

Draw or write

Foods

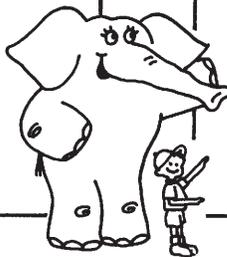

We find in these places.

My Home

Foodella Loves Variety

There are a variety of tastes in foods.
Match the foods to how
they
taste!

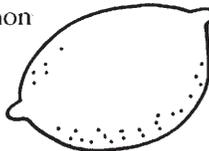

bitter

cookies

salty

lemon

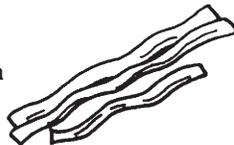

sweet

turnip

sour

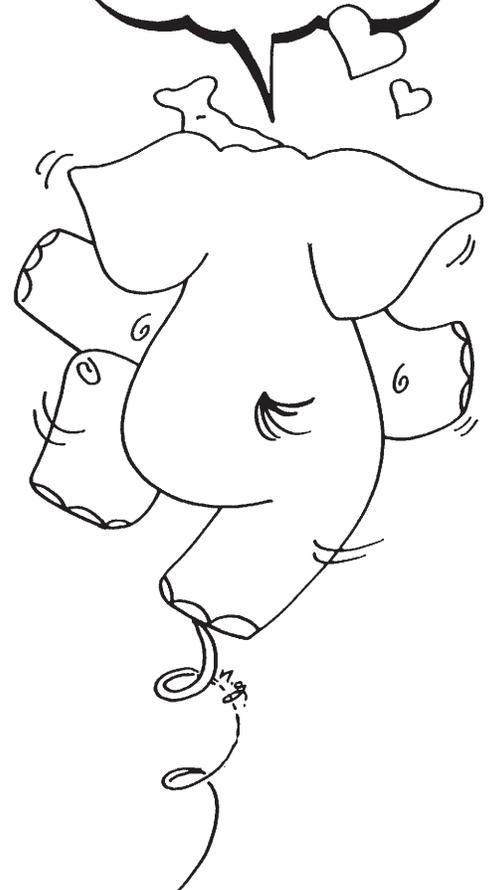

bacon

Variety is the
♥ **Fun**

part of eating!
Variety means
we get to taste
a lot of different
foods each day.

Variety means
you can eat
spaghetti, cereal,
crackers, rice,
bread, grapes,
bananas, carrots,
cheese, milk, steak,
and ham....
all in the same day.

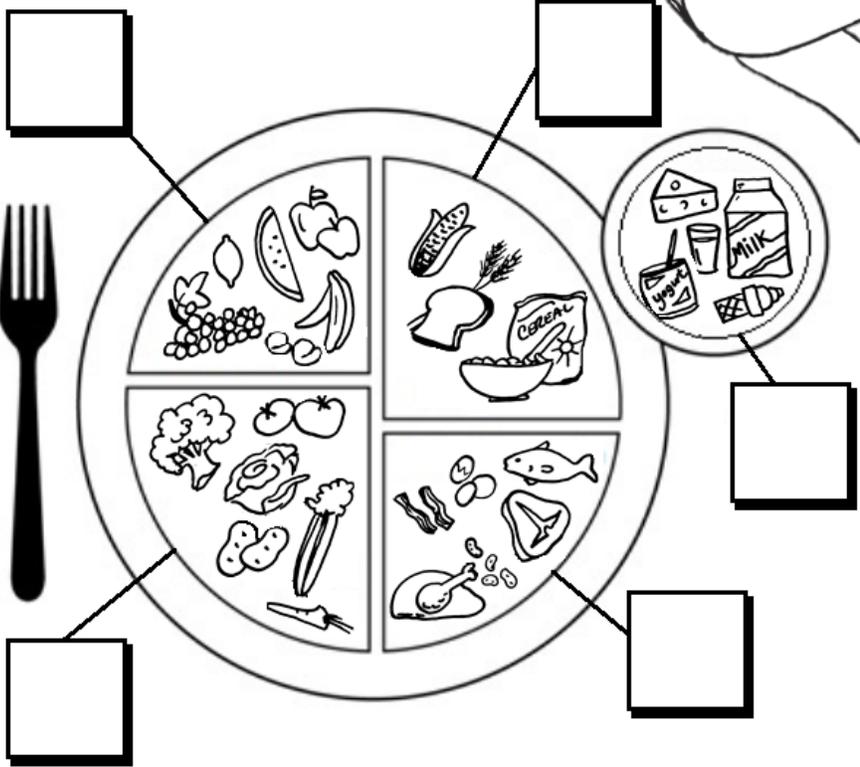

Unit 2:

Choosing Healthful Foods

from each group is fun!

I'm feeling Good!

Put the letter for the correct group in the boxes above.

- G** GRAIN
- V** VEGETABLES
- F** FRUITS

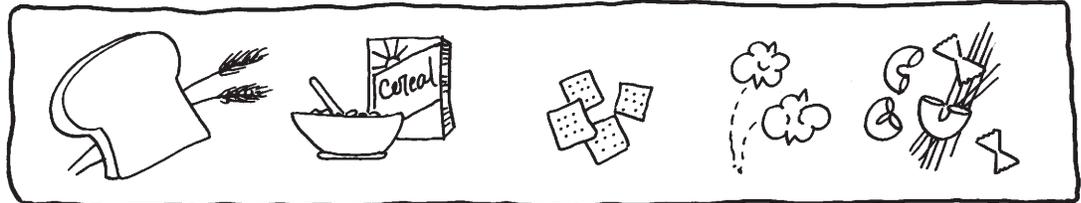

- M** MILK
- MB** MEAT AND BEANS

It is always
an adventure
when you

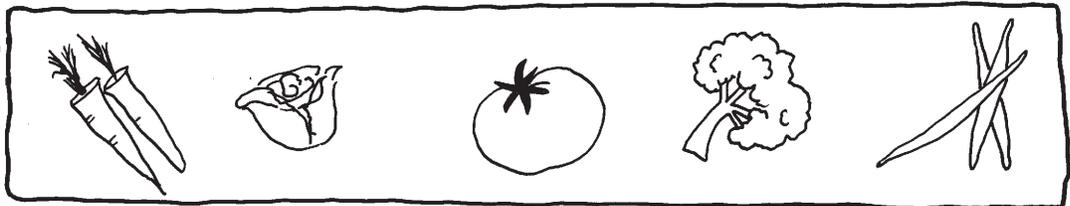

TRY SOMETHING NEW

Draw a heart around things you already like to eat. Put a ring around the foods you will try.

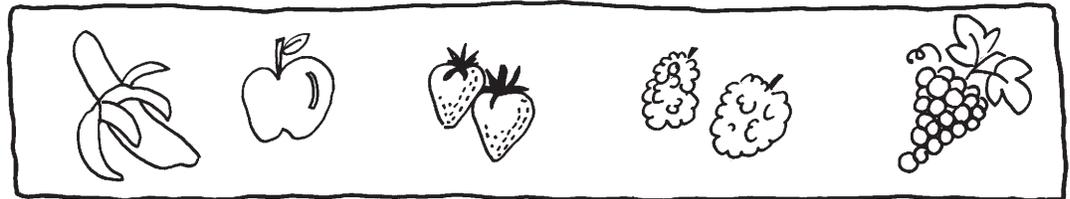

Grains

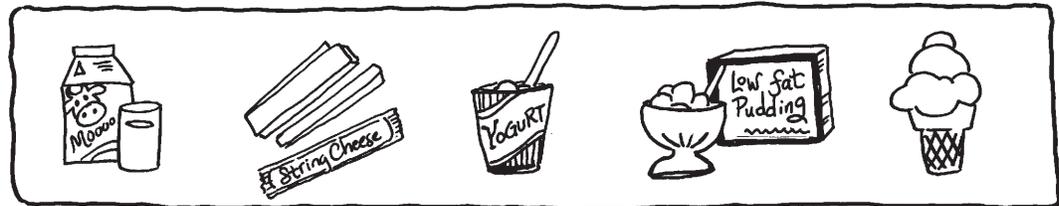

Vegetables

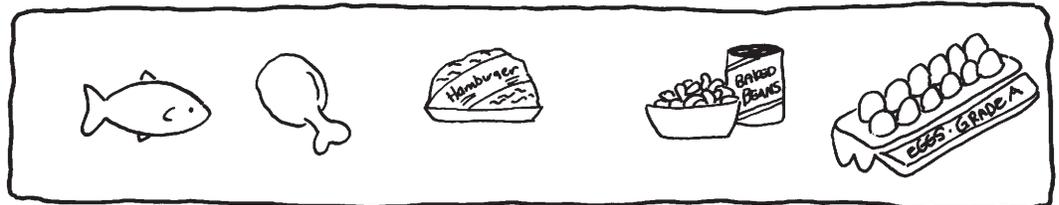

Fruits

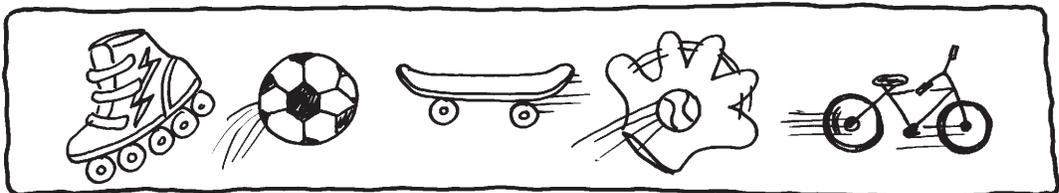

Milk

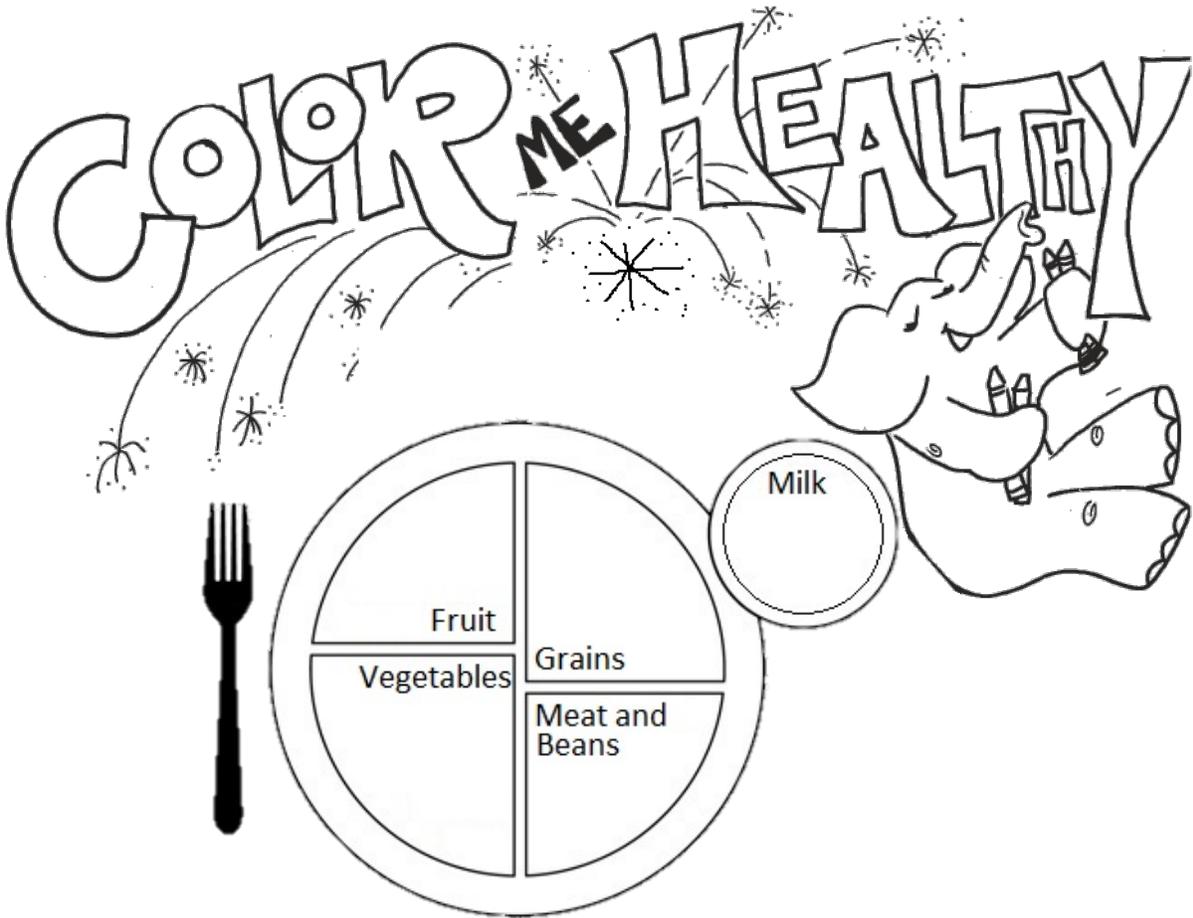

MEAT AND BEANS

Physical Activity

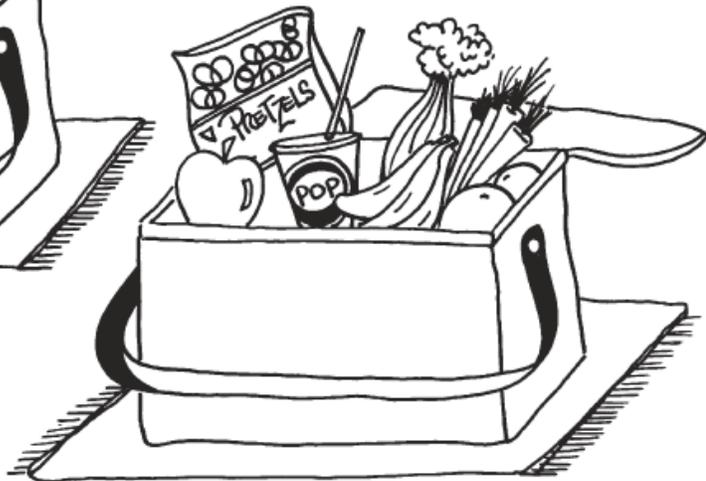

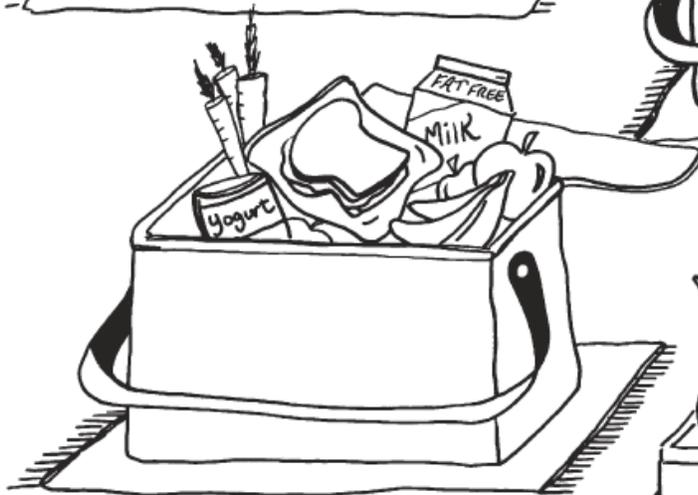

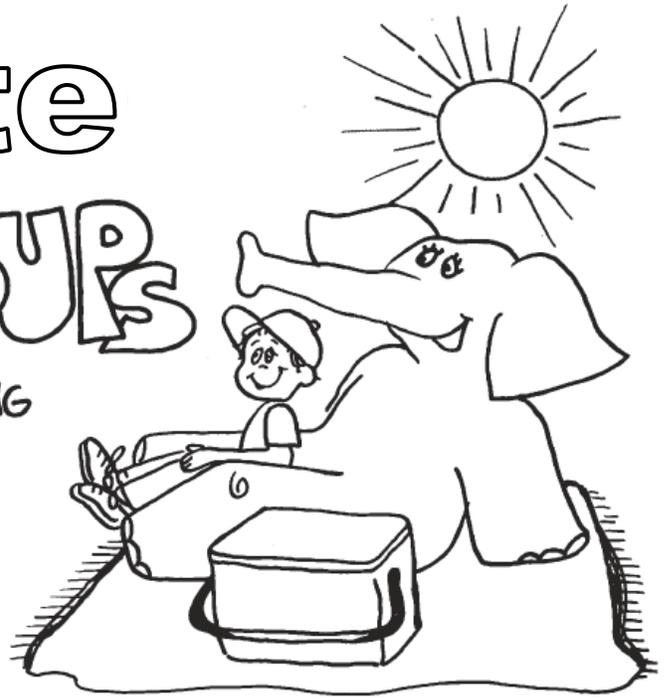

Color each section in the "MyPlate". Color **GRAINS** orange, **VEGETABLES** green, **FRUITS** red, **MILK** blue, and **MEAT AND BEANS** purple. Match the foods below to their food group by coloring the circles the same color as their food group.

- | | | |
|--------------------------------|---|-------------------------------|
| <input type="radio"/> bananas | <input type="radio"/> lean hamburger | <input type="radio"/> eggs |
| <input type="radio"/> broccoli | <input type="radio"/> kidney beans | <input type="radio"/> orange |

I need to eat more _____

I need to eat less _____

Snack	Supper 	Snack

Unit 3:

Max tries new foods

Give it a
Try!

I remember when I did not like Squash. It looked squishy and orange. I would not taste it. Then I tried it baked with applesauce. It was yummy. Now I love squash!

I'll try!

Draw or cut and a picture of a healthful food you have not tried but would like to.

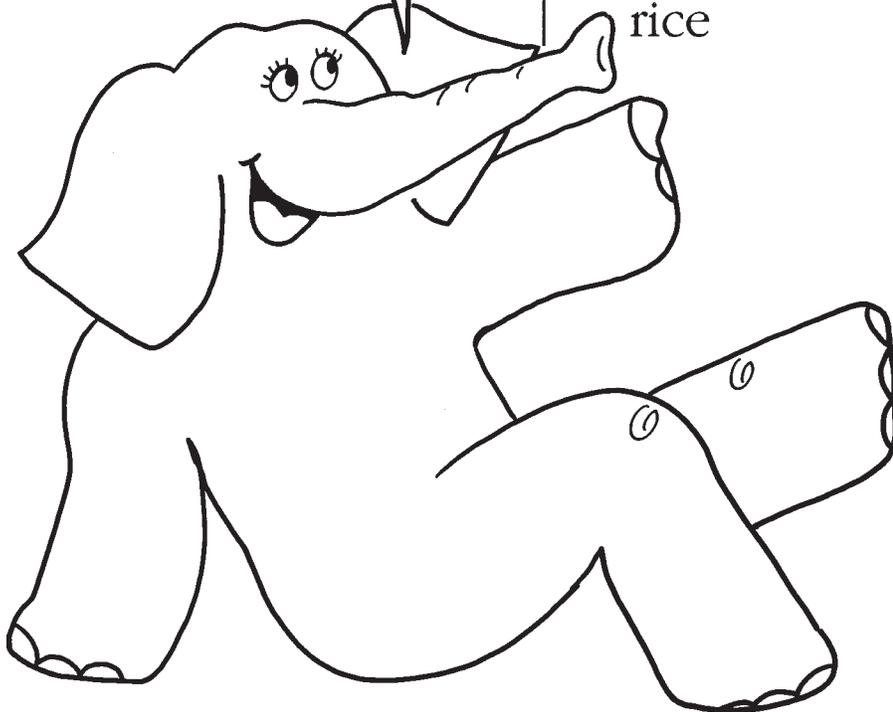

Then put a smile on Max's face when he finds out he likes it.

Trying new food is FUN

Have you been adventurous in trying new foods?
Circle the foods that you have tried. Underline the foods that you have not tried.

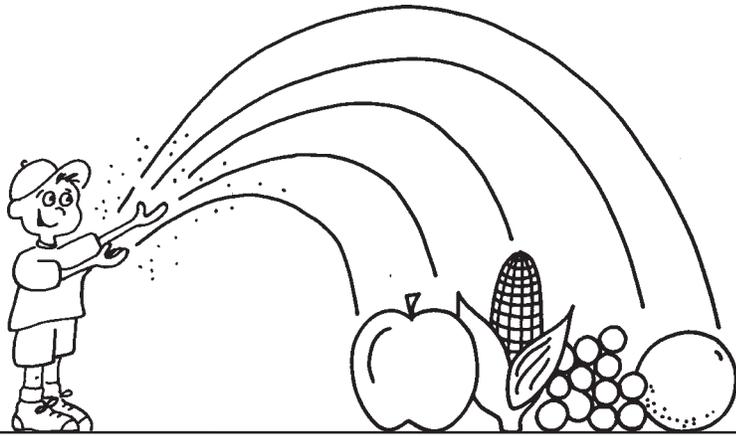

Make
a list of underlined
foods and take
it home.
You and your family
can try one food
on the list
each week.

kiwi	bean sprouts
starfruit	cabbage
squash	broccoli
mangoes	cottage cheese
pita bread	cauliflower
cantaloup	pork chops
rice	

It's good
to eat
many different
foods.

Wow!

Vegetables and Fruits
are colorful.

Running on Empty

Foodella: Hi, girls and boys. My name is Foodella. This is my good friend Max. We are all going to learn some great things about eating healthful foods.

Max: Girls and boys, do you know what you need so you can run and play?

Students: _____

Foodella: Why do we need food? (*Foodella waits for an answer*)

Students: _____

Foodella: Come on students. Join Max and me in our food cheer. (*Repeat each line after Max says it.*)

Max: We need food for energy
So we can jump and run and play.
We need food for protecting us
to keep those germs and colds away.
We need food to build bodies strong
by eating right each and every day.

Foodella: Just like a car, we need food to go on. What happens if your family car runs out of gas?

Students: _____

Max: Then what happens? How do you make it go?

Students: _____

Max: That is right. You will fill it up again with the right kind of fuel. We have to fill our bodies with the right kind of fuel to keep them running, too.

Foodella: How do you feel after school?

Student: _____

Foodella: Most of you are hungry. Your body is running low on fuel after thinking and playing hard all day. You go home and eat a snack.

Max: A healthful snack gives you energy to play before dinner. Before I met Foodella, I did not eat healthful foods. I did not know about the *MyPlate*, so I would get tired and hungry all the time.

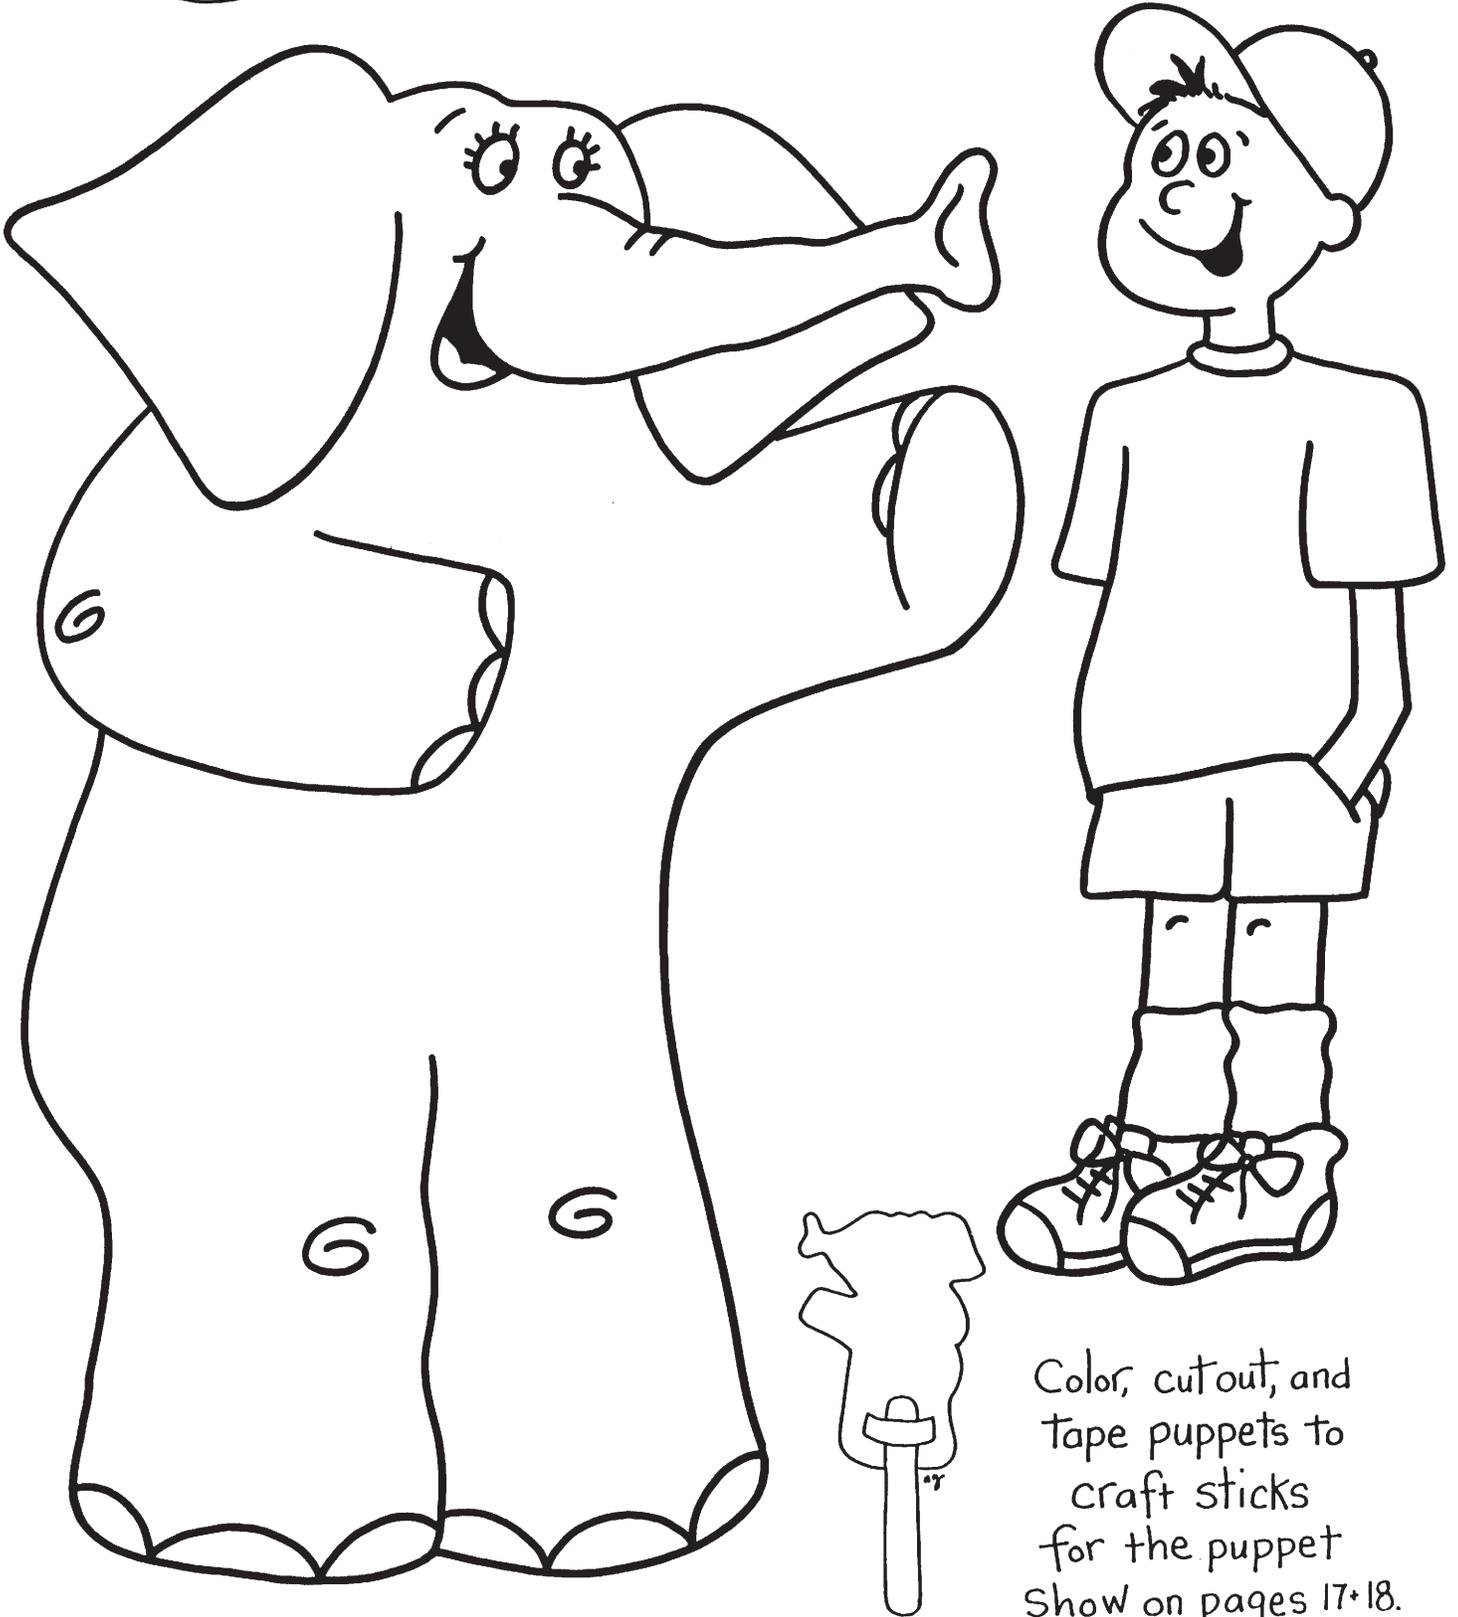

Foodella: That is right. Now that Max eats foods from the *MyPlate*, so he does not need to stuff himself with potato chips after school.

Max: The best part is I have the energy to play baseball or roller blade with my friends. Roller blading is a lot more fun than watching TV all the time.

Foodella: And the exercise helps Max's body use his food to make him stronger. Eating right can also work for you.

Max: Let's say the cheer again.

PUPPET FUN

The Vitamin Alphabet

Foodella loves her Vitamins (vit-a-mins).
Join Foodella in learning the vitamin alphabet.

Vitamins
are in the foods I eat,
Even those I get as treats.

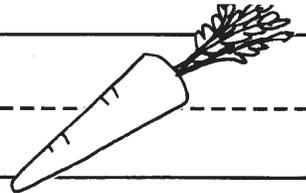

Vitamin A
helps us to have bright eyes
and keeps our skin soft.

Vitamin B
helps us to have a good appetite
and helps our body use energy.

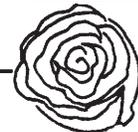

Vitamin C
helps our body to heal when
we get a cut or a scratch and
protects us from infection.

Vitamin D
helps calcium to build strong
bones and teeth.

D

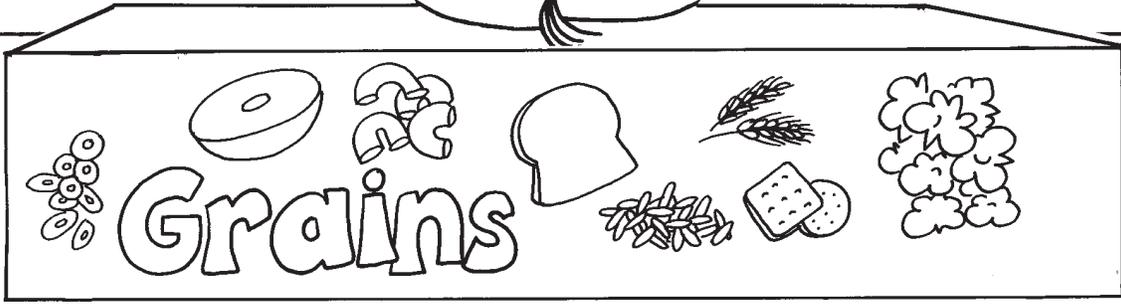

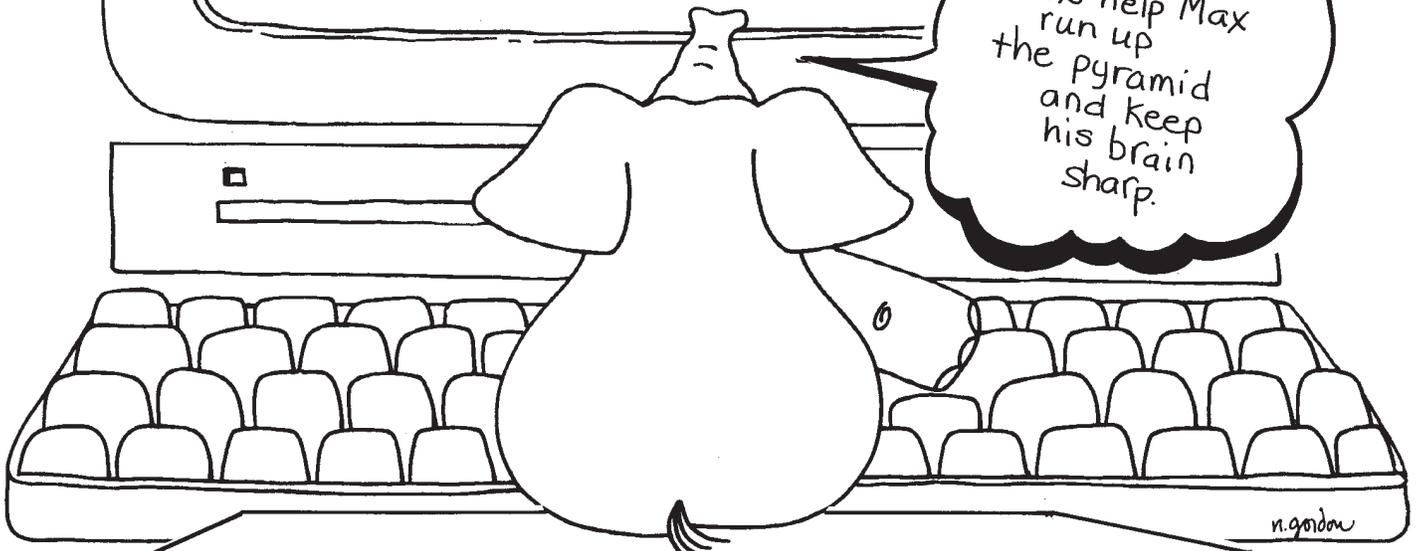

This week I will eat foods with these
vitamins!

Grains for Brains

The grains group includes foods such as bread, cereal, oatmeal and pasta. They are all made up of grains such as oats, rice, wheat, and corn.

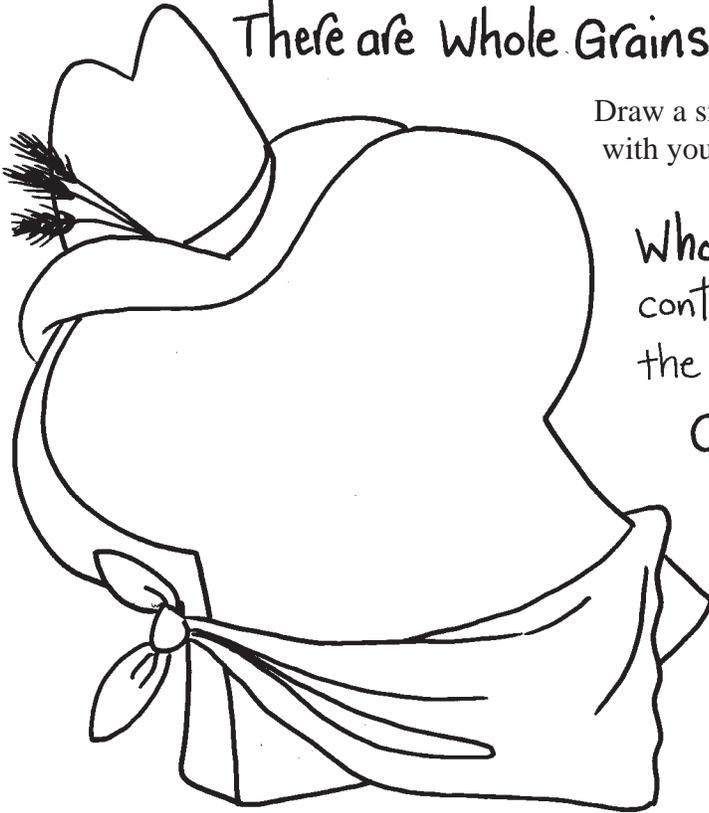

MEOATAL _____
ORNPOPC _____
TOAS _____
HEATW _____
GABLE _____
STAPA _____
CIRE _____
REBAD _____

Grains come from plants. Examples of grains are wheat, oats and rice. Eating whole grains is best because all parts of the grain are good for you. Grains help Max run up the pyramid and keep his brain sharp.

GRAB the GRAINS

These are Whole Grains and these are Refined Grains

Draw a smile on the whole grains bread. Have a contest with your friends to think of the most whole grain foods.

Whole Grains are better for you. They contain the whole kernel; the bran, the germ and the endosperm.

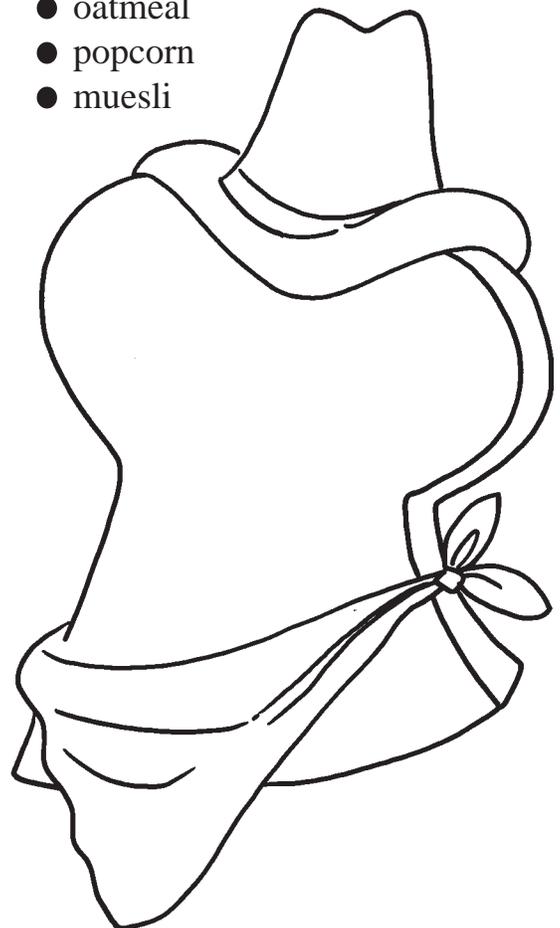

Choose:

- whole wheat flour
- whole wheat bread
- brown and wild rice
- whole grain cereal
- whole grain spaghetti
- oatmeal
- popcorn
- muesli

Refined Grains have been "milled," a process that removes bran and germ. This is done to give grains a finer texture and improve shelf life, but it also removes fiber, iron, and B Vitamins.

Choose less often:

Grains with the words "**enriched**" or "**refined**" on the package because this means it doesn't have the whole grain in it. Also, choose less often grains with added sugar and fat.

Protection Foods Show

NOW PLAYING

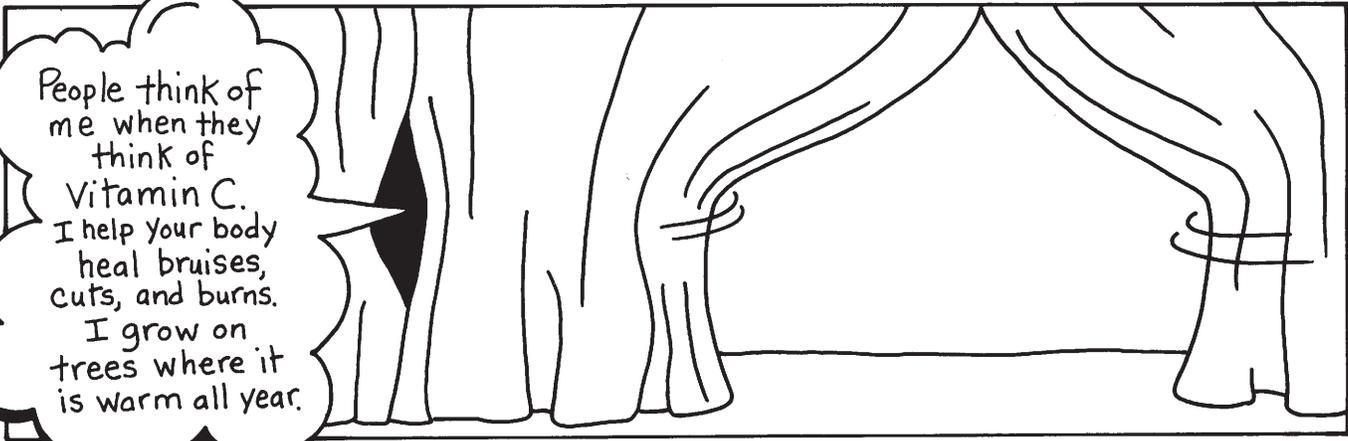

Protection foods help your body stay well. Protection foods are full of vitamins and minerals.

Vitamins help your bones become strong and help your body fight disease. Minerals help your teeth, bones, and blood. Vegetables and fruits are protection foods.

Answer the riddles below by drawing or naming the correct protection food on the stage.

I am orange and long. I am the root of a plant. I have Vitamins that help you see. Guess who I am.

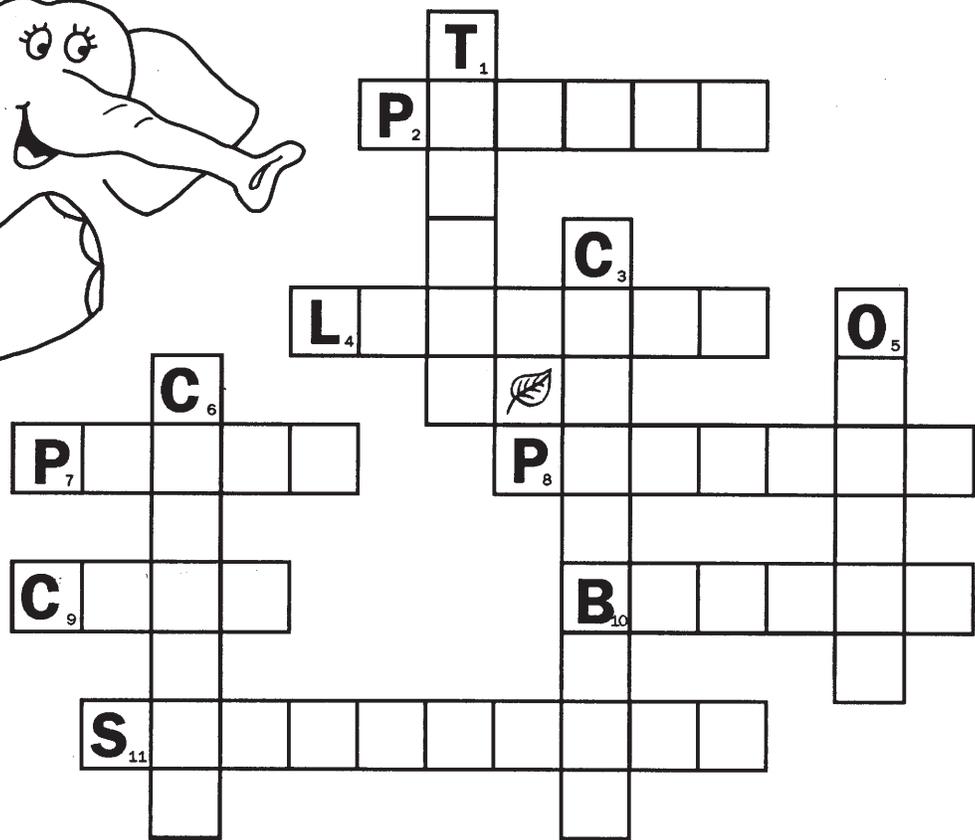

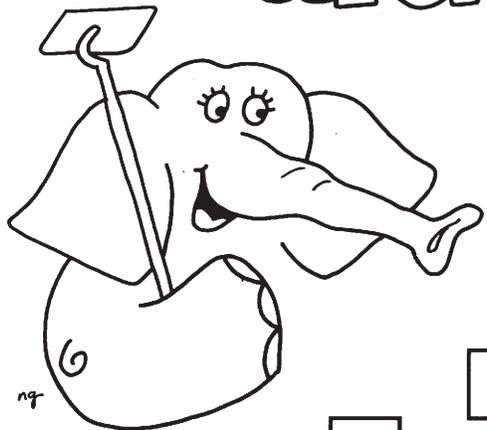

People think of me when they think of Vitamin C. I help your body heal bruises, cuts, and burns. I grow on trees where it is warm all year.

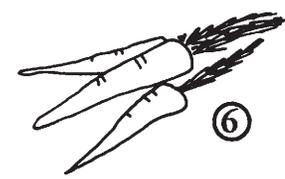

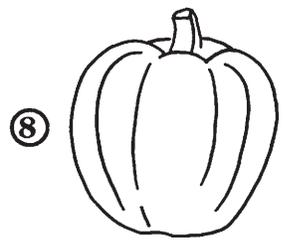

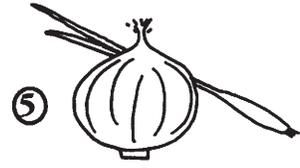

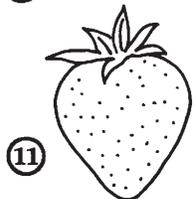

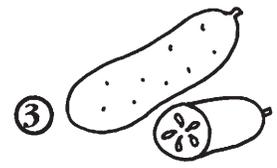

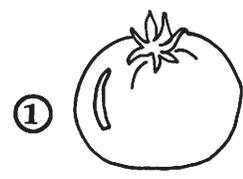

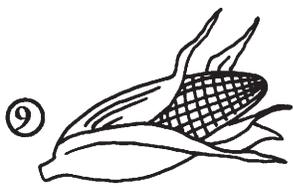

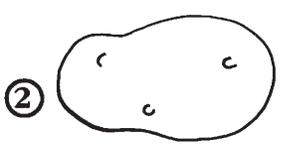

Some people wrinkle their nose at me, but I really taste great! I am full of fiber and nutrients that help your body fight diseases. I am green and look like a little tree.

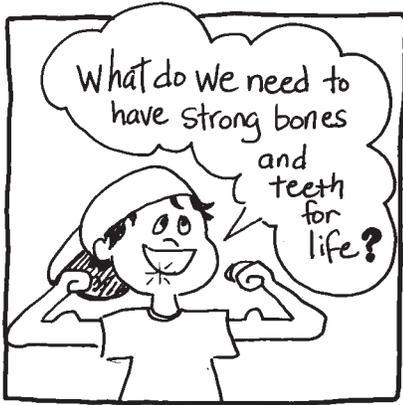

Foodella's Garden Puzzle

Across

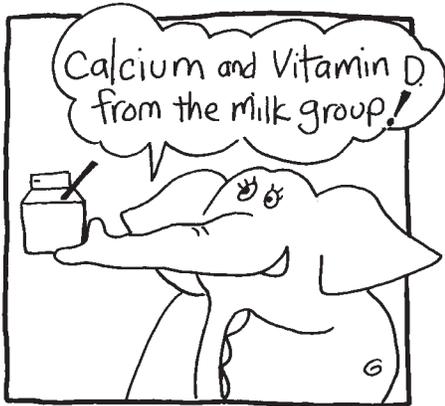

Down

Win at Life

Body building foods help us grow. They are calcium for our bones and teeth from the **MILK GROUP**, and protein foods for our muscles, skin and hair from the **MEAT AND BEAN** group. These foods include milk, yogurt, cheese, meat, poultry, fish, dry beans, eggs and nuts.

Be Your Best!

Eating foods from the Milk and Meat and Bean group, and getting exercise will help you to be your best now... and later in life too!

Mark the times you ate or did these things today:

- _____ Milk Products
- _____ Meat and Beans Group
- _____ Toe touches
- _____ Squats
- _____ Sit ups
- _____ Jumping jacks
- _____ Walking
- _____ Running
- _____ Roller blading
- _____ Stretching
- _____ Swimming
- _____ PE Activity
- _____ Bicycling

You're A Winner!

BUILD YOUR BODY WITH SCHOOL LUNCH TO MAX YOUR MIND

READY SET GO

Physical activity and nutrition work together for better health. Being active is a key element in living longer, healthier and happier.

Draw

a picture of you doing something active. Circle all the things you like to do that are active.

- running
- hiking
- golfing
- walking
- swimming
- bicycling
- dancing
- playing soccer
- roller blading
- playing hockey
- playing basketball
- playing baseball
- skate boarding
- jumping rope

Physical Activity: makes you feel good, increases fitness level, builds bones, builds muscles, manages weight, reduces risk of cancer, diabetes, heart disease, and helps control blood pressure.

CAUTION FOODS

To stay healthy eat Caution foods only once in a while. Caution foods are foods with added sugar, fat and salt. Avoid foods with saturated fat and transfat because they are not good for **YOU**.

Fill in the amount of these foods you eat each week.

How many times do you eat these ?

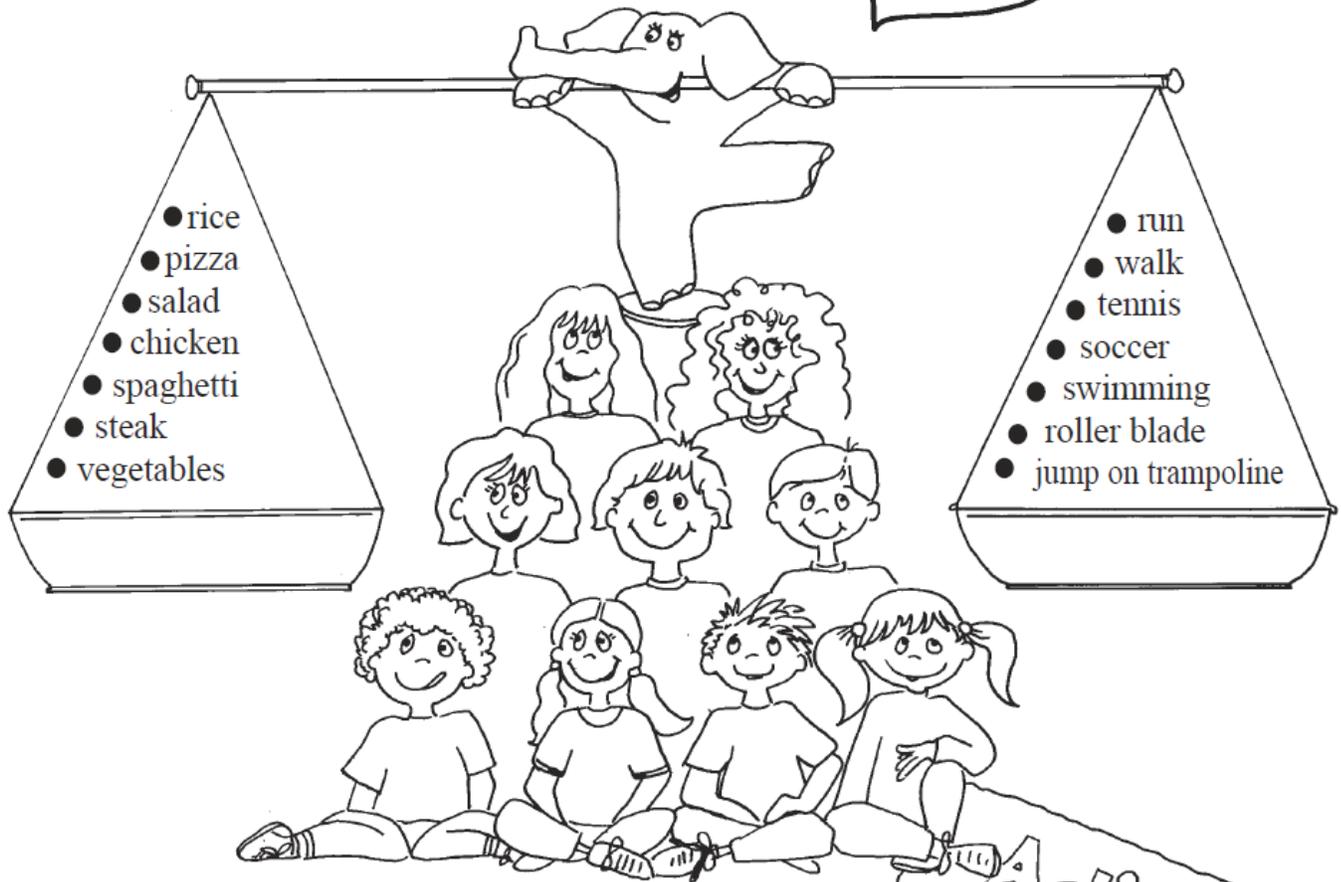

- _____ gummy snacks
- _____ french fries
- _____ candy bars
- _____ potato chips
- _____ soda pop
- _____ fried chicken
- _____ pizza with meat
- _____ buttered popcorn
- _____ cookies
- _____ fast food
- _____ donuts

CHOOSE Healthier **FOODS !**

- dried fruit
- baked potato
- raisins and peanuts
- 1/2 whole wheat bagel
- skim or 1% milk
- baked chicken or fish
- pizza with vegetables
- popcorn with no added fat
- watermelon or fruit

Unit 6:

Balance Food! With Activity!

BALANCE MEANS

eating enough to be healthy but
not too much so we gain extra weight.
To find out how much you need- go to

www.MyPlate.gov

While you are there play the Blast Off game.

Balance for a better Body

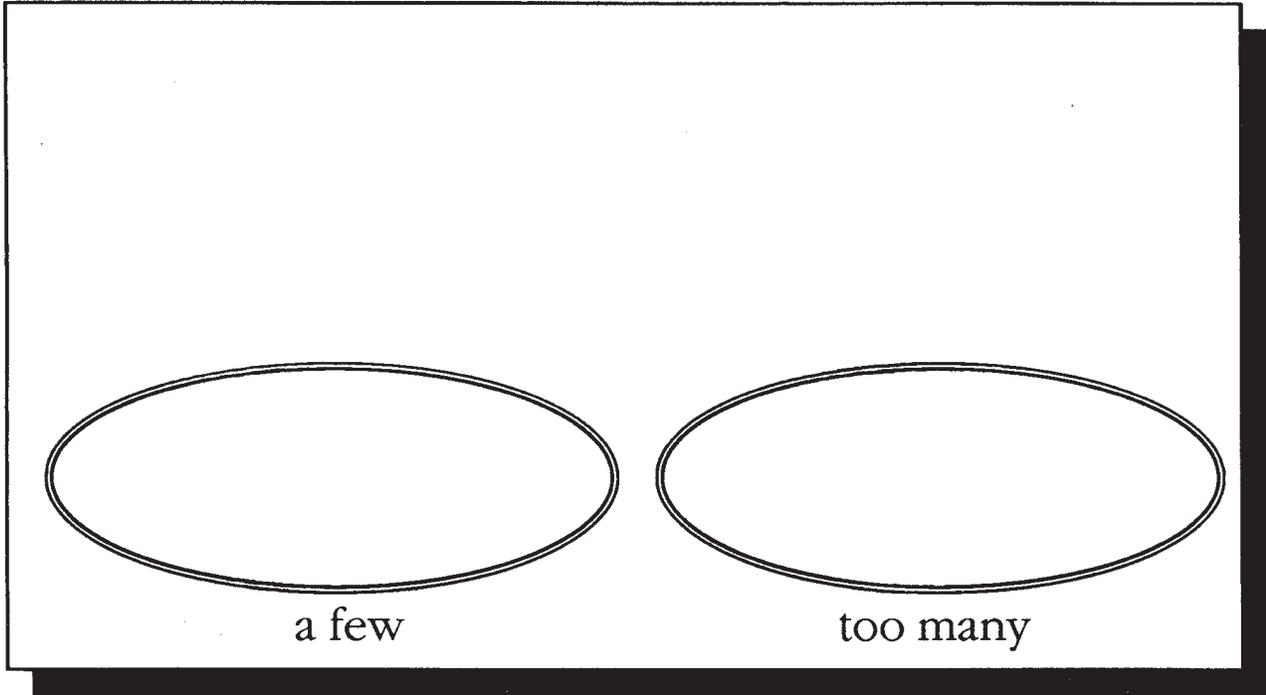

Balance is eating food from each of the food groups and not eating too many caution foods. Variety is cool! Variety means eating different food items from each group. Can you name some different fruits and vegetables you like?

Make...

a mobile from a clothes hanger. Color and cut out Foodella from the bottom of this page and attach it in the middle of the hanger. You will need empty cartons from each food group (like frozen food package, a milk carton, bread wrapper, cracker box, dried apple skin, or fruit). Tie them on the coat hanger so that they balance.

Moderation

Moderation is eating **few** oils and sugars.

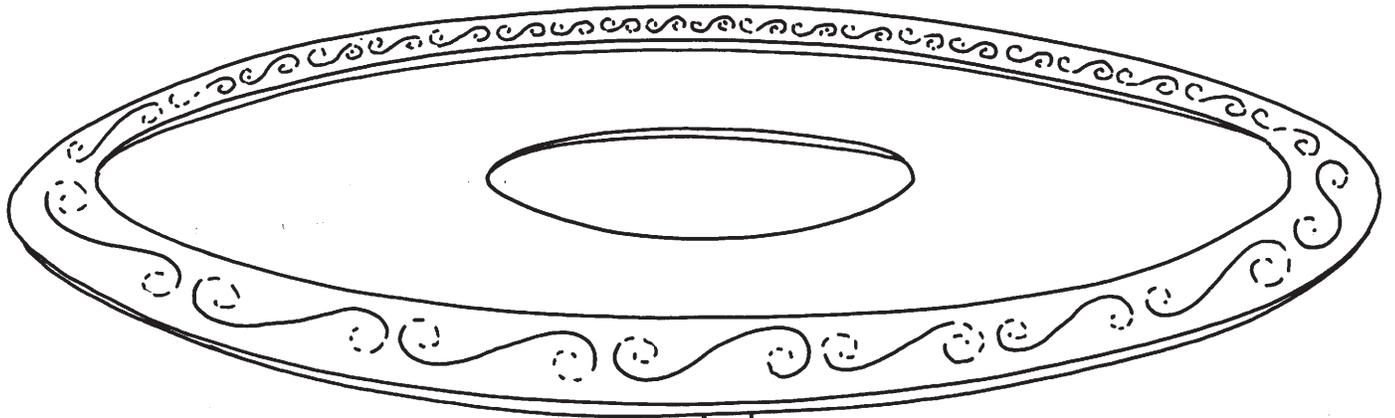

One or two chicken drumsticks are ok. Four are too many.

On the plates above draw chicken drumsticks on each plate to show few and too many.

RESTAURANT

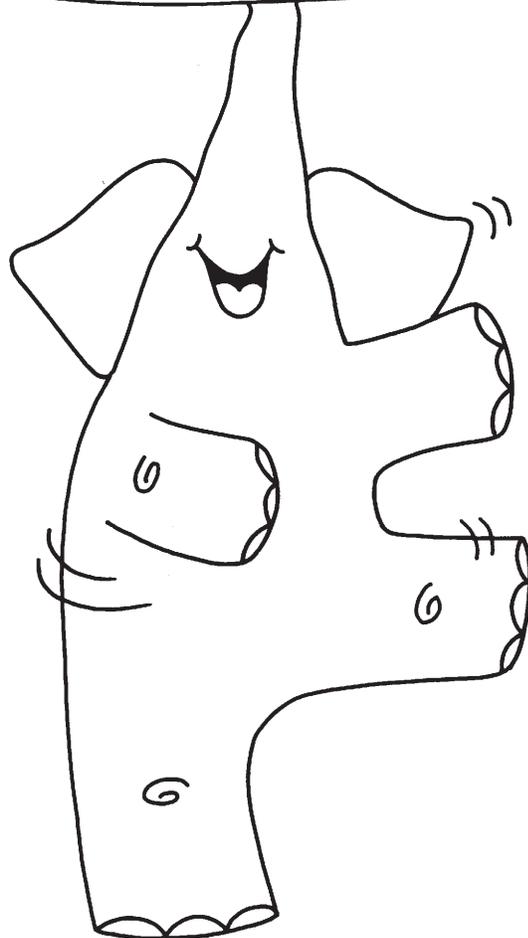

Set up a restaurant.
Students play the
Part of waiters or customers.
Students order moderate
amounts of different foods.

Balance

Help Foodella balance her daily diet. Cut and paste foods on her plate she should eat to stay healthy.

Healthful Menu

	Monday	Tuesday	Wednesday	Thursday	Friday
Write the School Lunch Menu					

What did you eat?

Grains	___								
Fruits	___								
Vegetables	___								
Milk	___								
Meat & Beans	___								

Did you do something active?

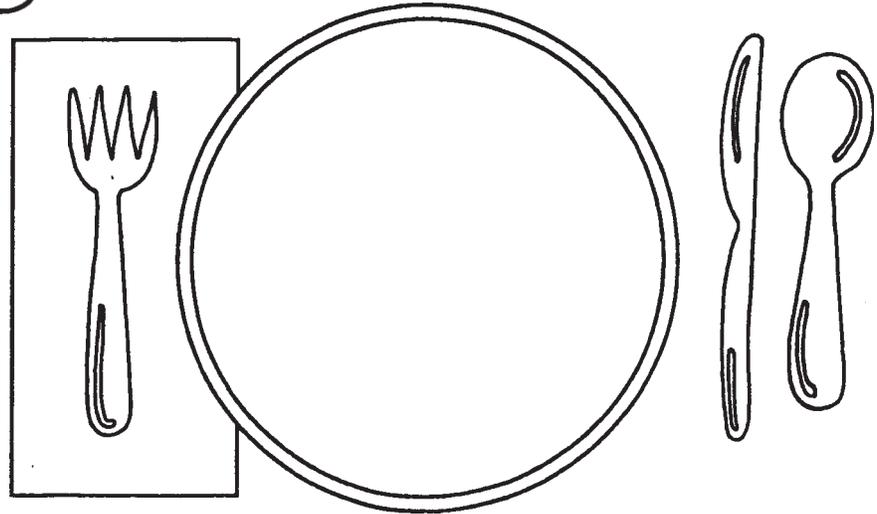

Activity	___								
----------	-----	----------	-----	----------	-----	----------	-----	----------	-----

Does this meal have foods from each group?

Make your own Meal

Write or draw foods for your meal on the plate. 

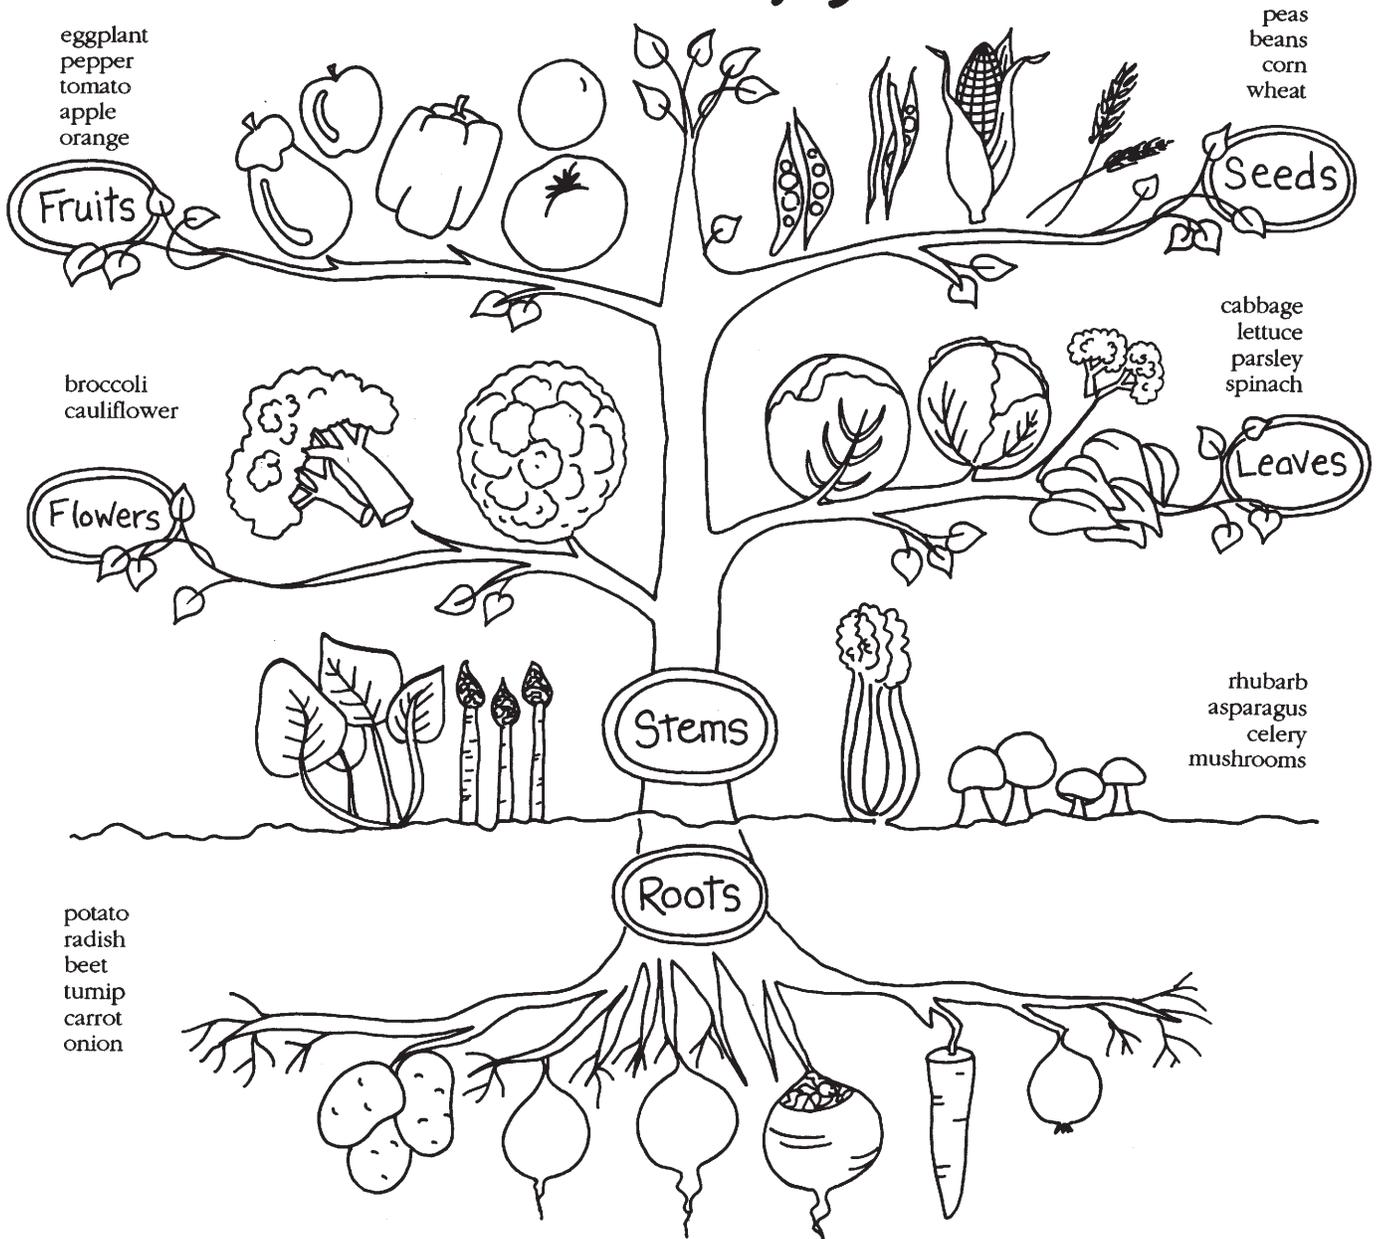

Does your meal have food from each group?

Unit 7:

TOP Middle BOTTOM

See how they grow.

Foods come from different parts of plants. Name some of them.

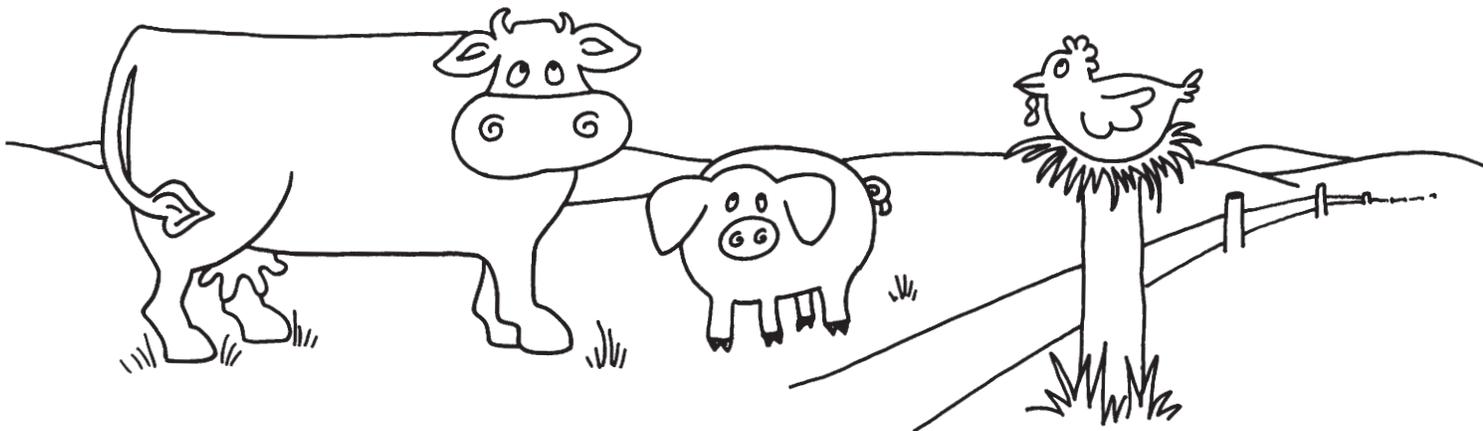

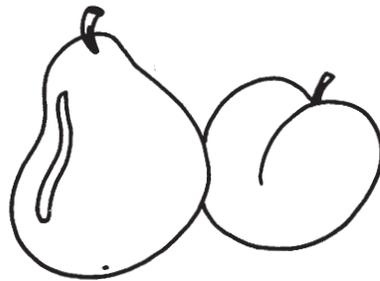

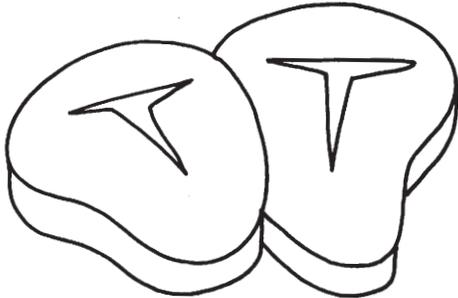

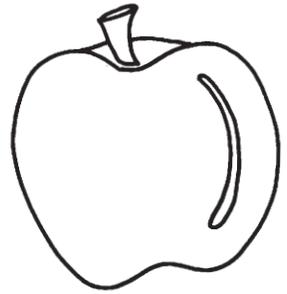

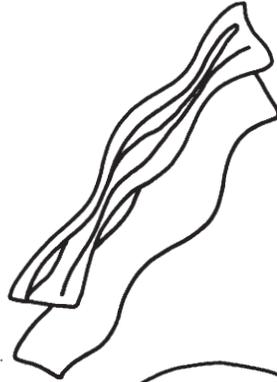

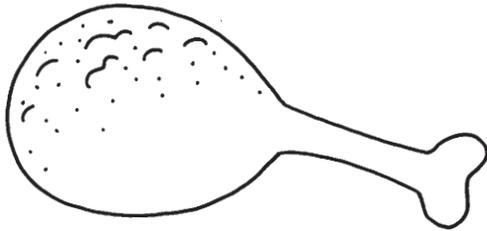

Fruits/Seeds _____

Leaves/Flowers _____

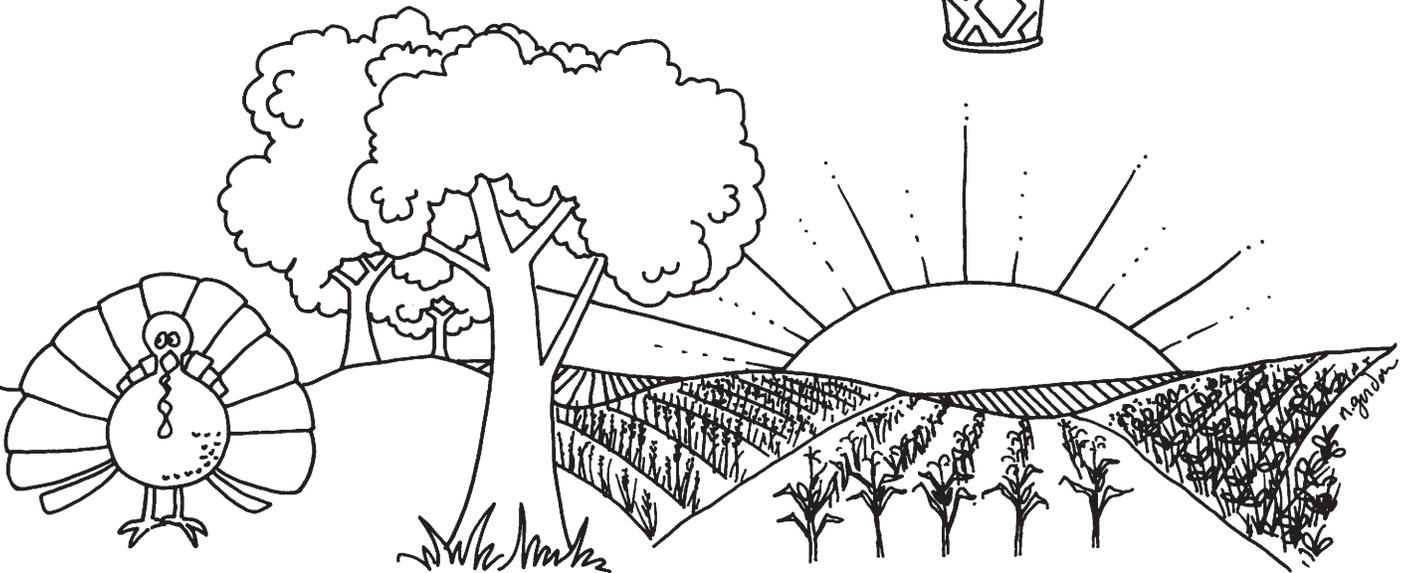

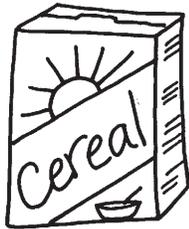

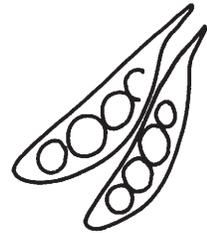

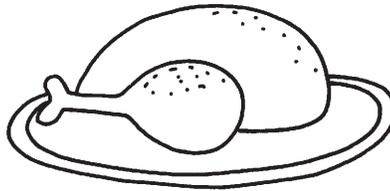

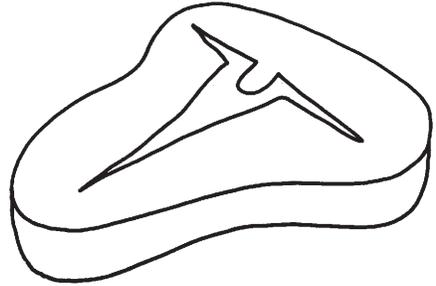

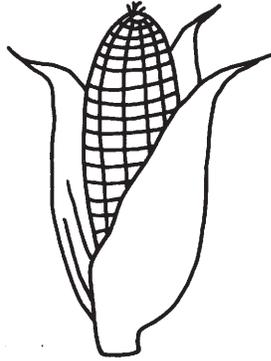

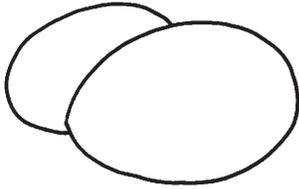

Stems/Roots _____

Where Food

Draw a line from the food to its origin at the bottom.

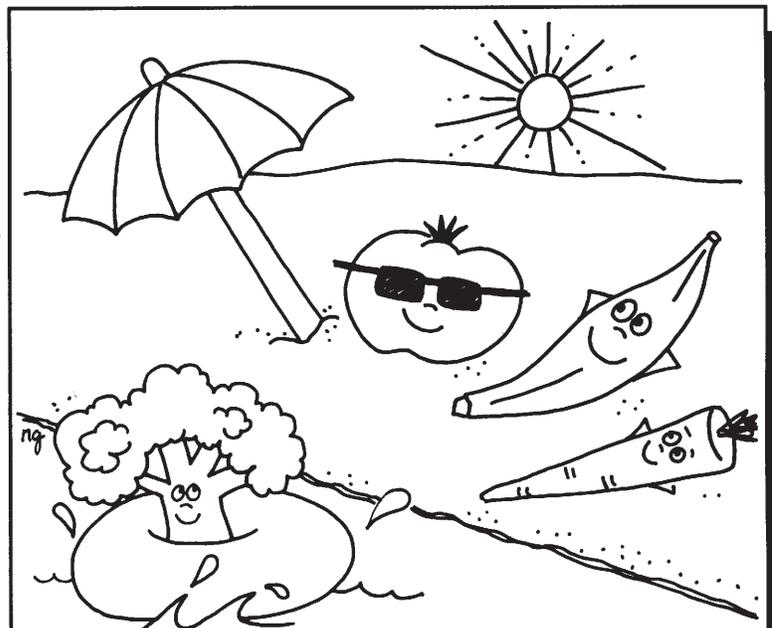

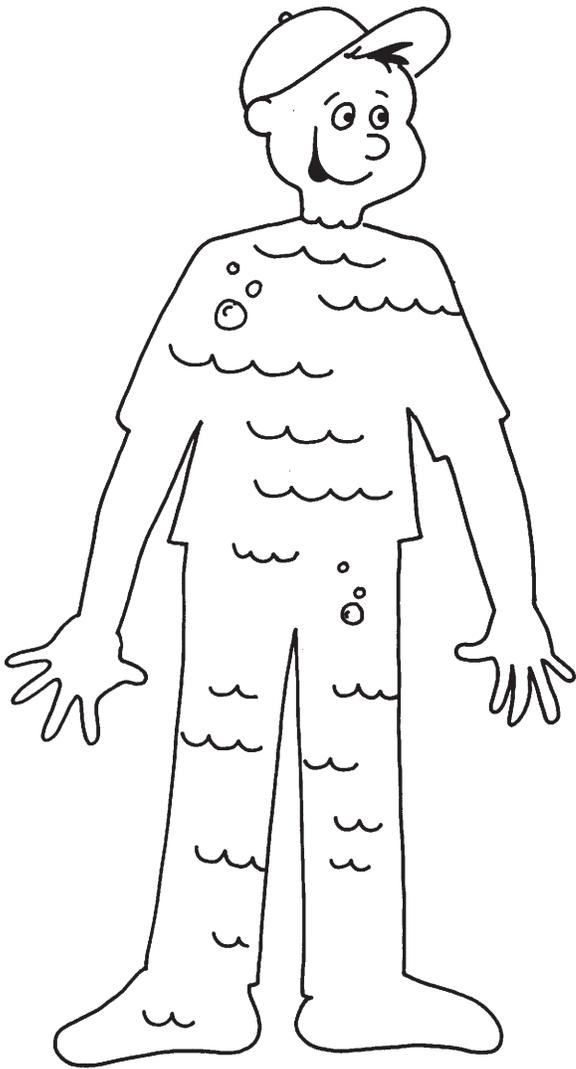

Comes From

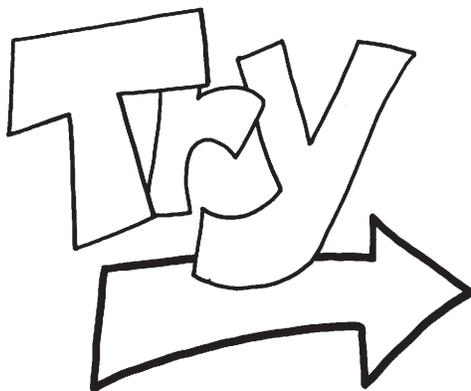

We are Water

Water is found throughout our bodies.
We cannot live without water.
We need to drink a lot of water
every day.

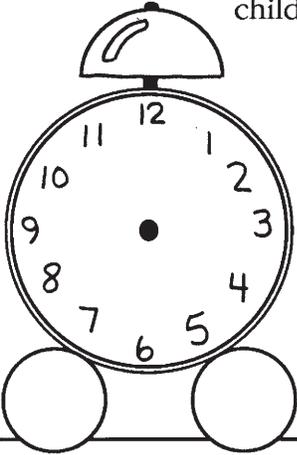

These vegetables
are enjoying the sun. However,
without water they would soon shrivel.
Place some fruits and vegetables on
a sunny window ledge.
Observe what happens
after a few days.

Unit 8:

Start [☀] your day Smart

Breakfast is the most important meal of the day. Like filling a car with fuel before a trip, children must fill their bodies with good fuel each morning.

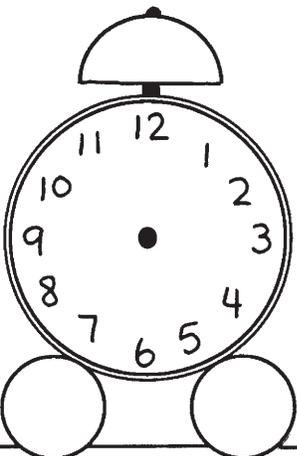

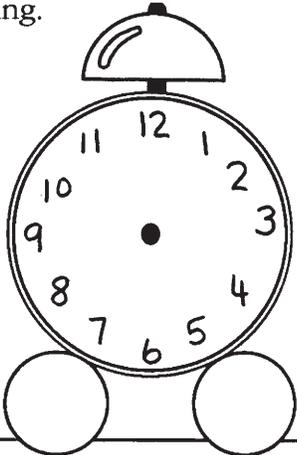

When...

← Was your last meal before breakfast?

did you eat breakfast? →

hours between meals

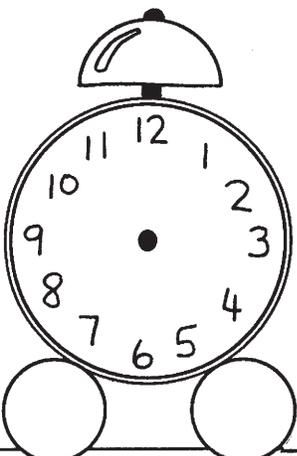

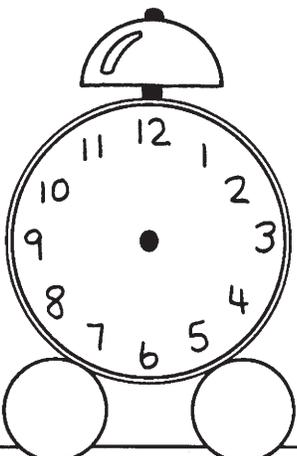

When...

← did you eat breakfast?

did you eat lunch? →

hours between meals

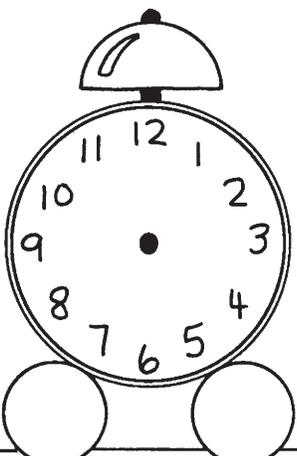

When...

← did you eat lunch?

did you eat you eat supper? →

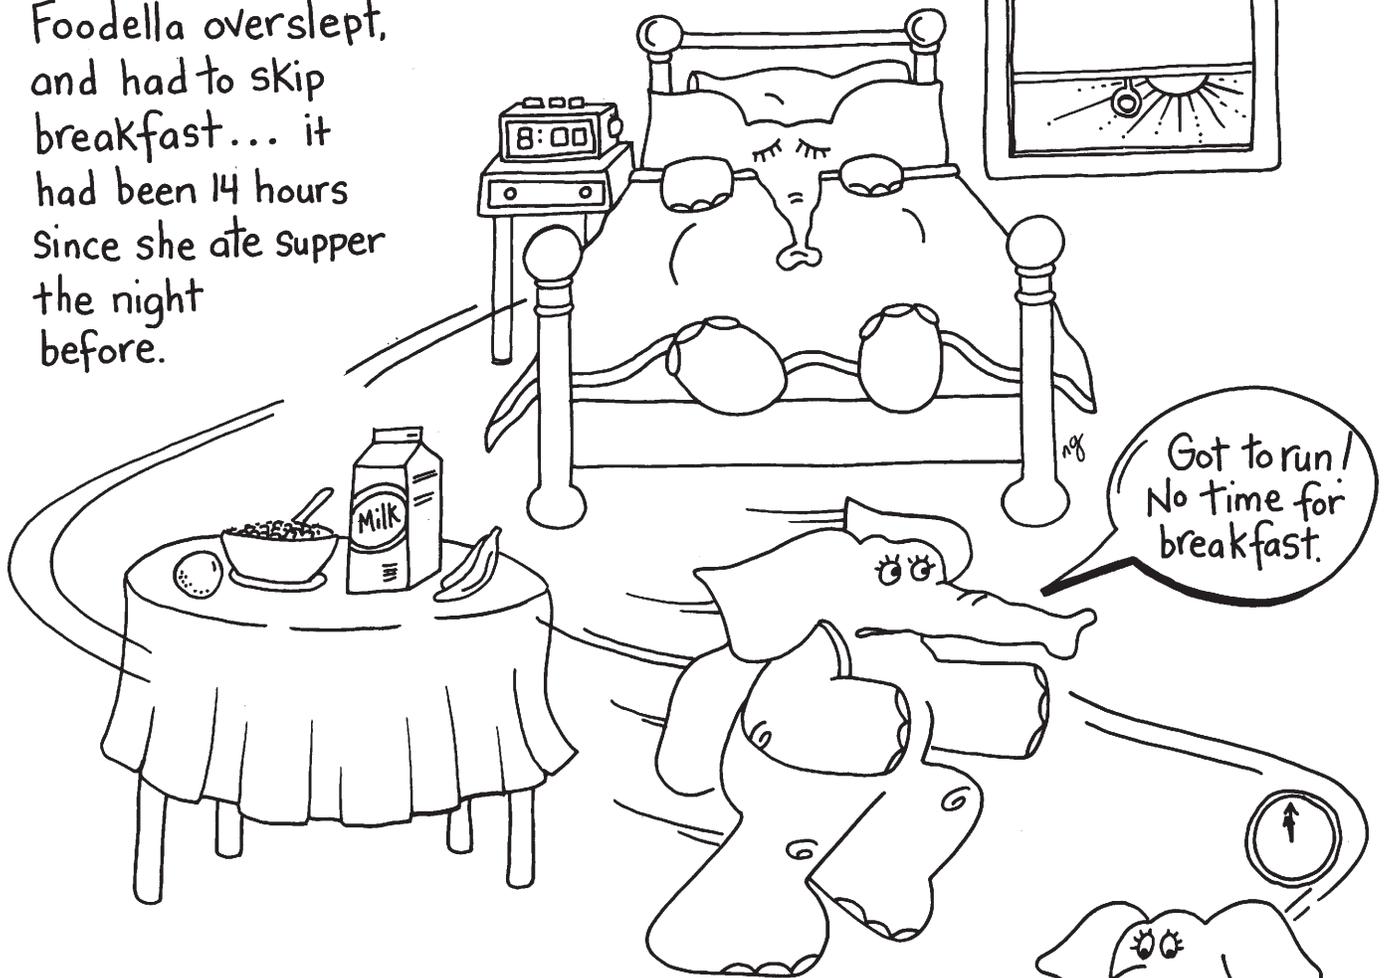

hours between meals

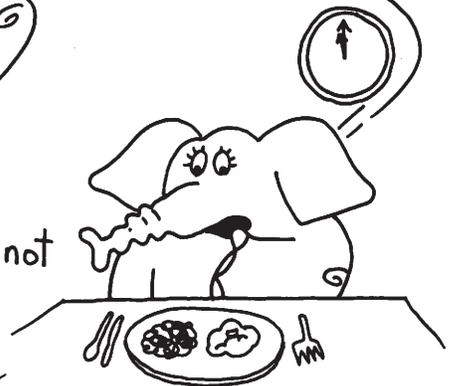

Do you eat snacks between meals? Yes No

One day

Foodella overslept, and had to skip breakfast... it had been 14 hours since she ate supper the night before.

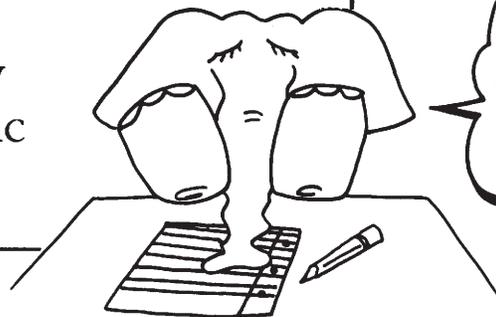

At lunch she ate only a peach because she did not like meatloaf and mashed potatoes.

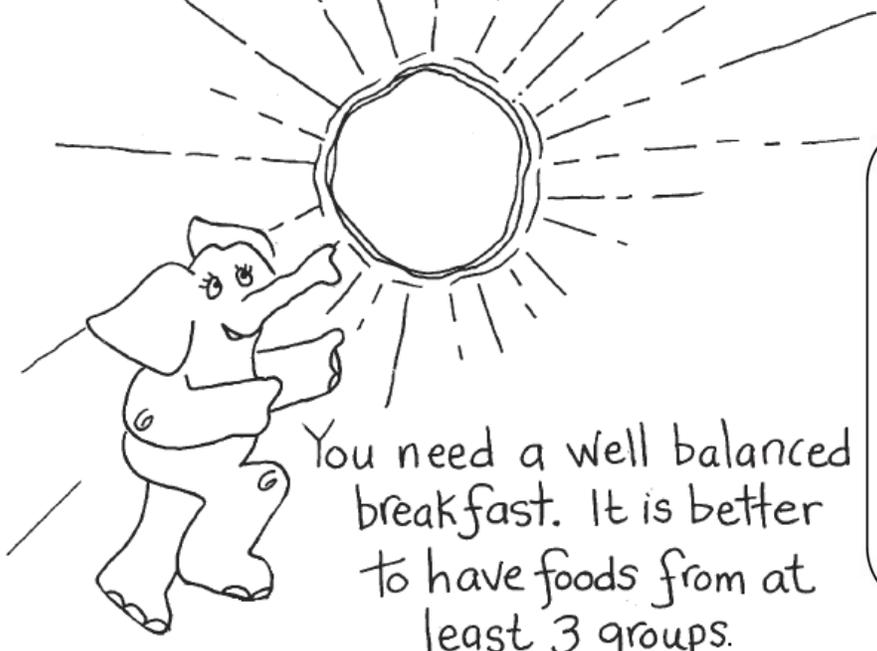

Foodella Feels...

- tired
- grouchy
- energetic
- smart

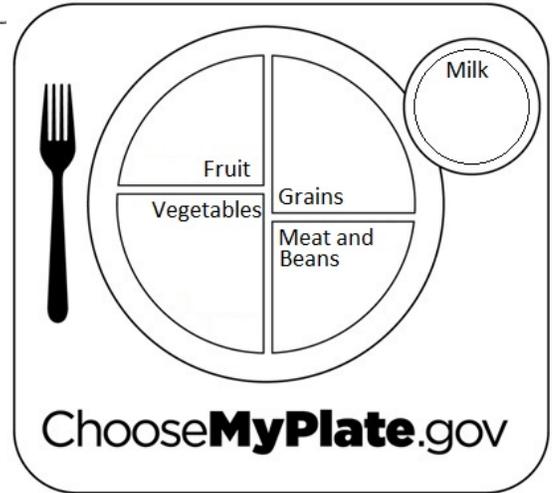

I don't feel like working. I don't feel like playing. I need to fuel my body with good food!

Way to Wake Up

You need a well balanced breakfast. It is better to have foods from at least 3 groups.

BREAKFAST

Way To Start The Day!

EATING BREAKFAST

Will wake up your brain and give you energy to play!

Write what foods you had for breakfast in the correct group on the MyPlate.

HEALTHFUL HABITS

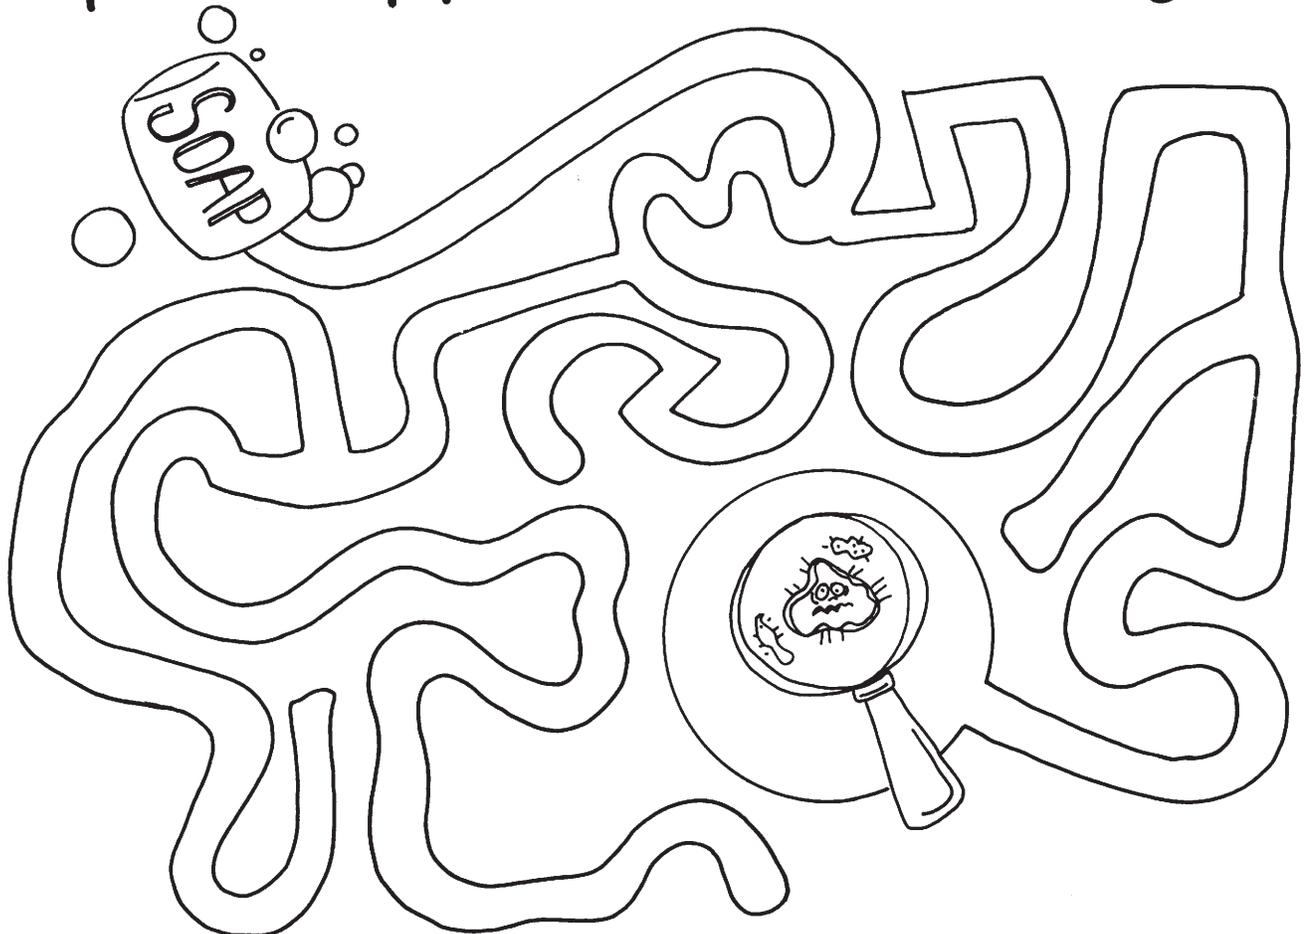

There are tiny plants and animals that are so small we cannot see them without using a microscope. Some of them make us sick. We call them

Germs.

We wash our hands so germs will not get inside our bodies. These germs are the reason we must wash and put medicine on cuts and scratches.

Help the soap find its way to Kill the germs!

Wash Germs Away

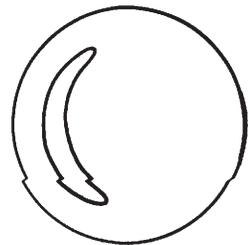

SOAP is the answer.
Your skin may look clean, but if you
don't use soap, germs
are still there.

Foodella,
You sure know
how to have fun, and
get rid of germs!

EXperiment:

1. Put a little vaseline on your hands.
Notice how greasy it feels.
2. Try washing it off with cold water.
Notice how your hands feel.
3. Now wash with soap and warm water.
Notice how your hands feel.

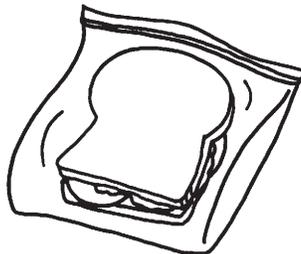

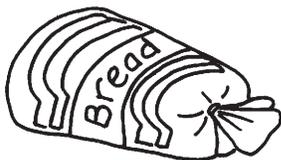

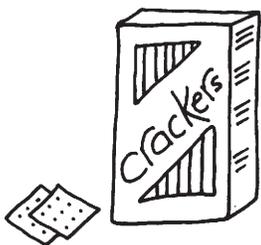

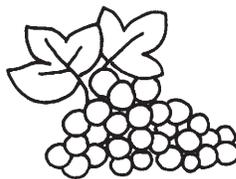

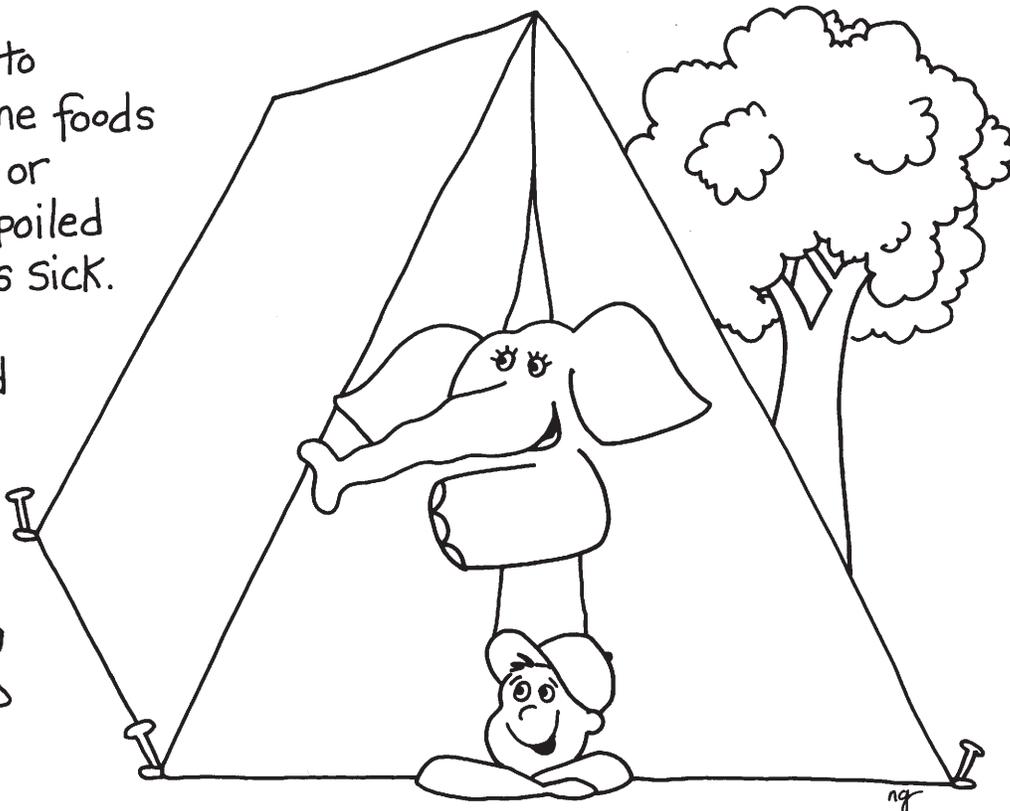

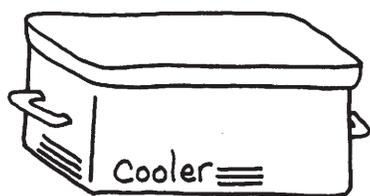

Soap washes off vaseline, like soap washes off germs.
Plain water does not.

Foodella goes

CAMPING

Foodella will need to take a cooler. Some foods must be kept cold or they will spoil. Spoiled foods can make us sick. Circle the foods below that should be kept cold in a cooler.

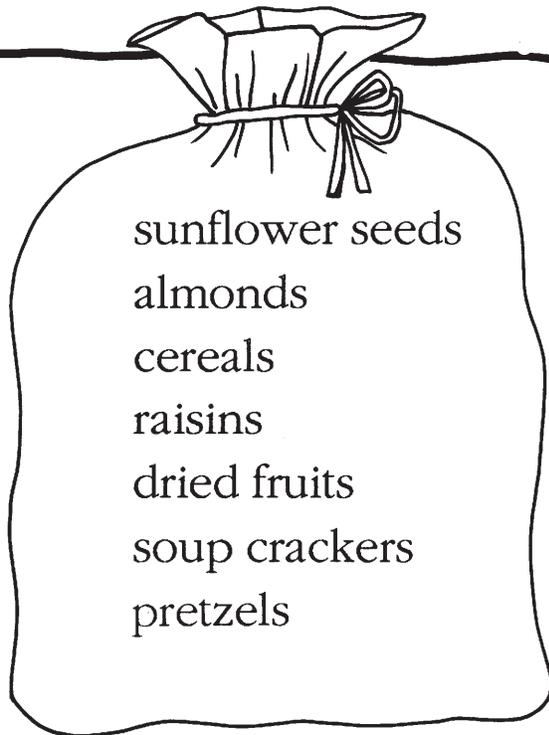

Snack Sense

When Foodella and Max went camping they did a lot of hiking. They got very hungry. Foodella brought a healthful snack to share. It was trail mix and water. The grains, nuts, and fruits are for energy, protection, and body building. Water will keep the body from dehydrating.

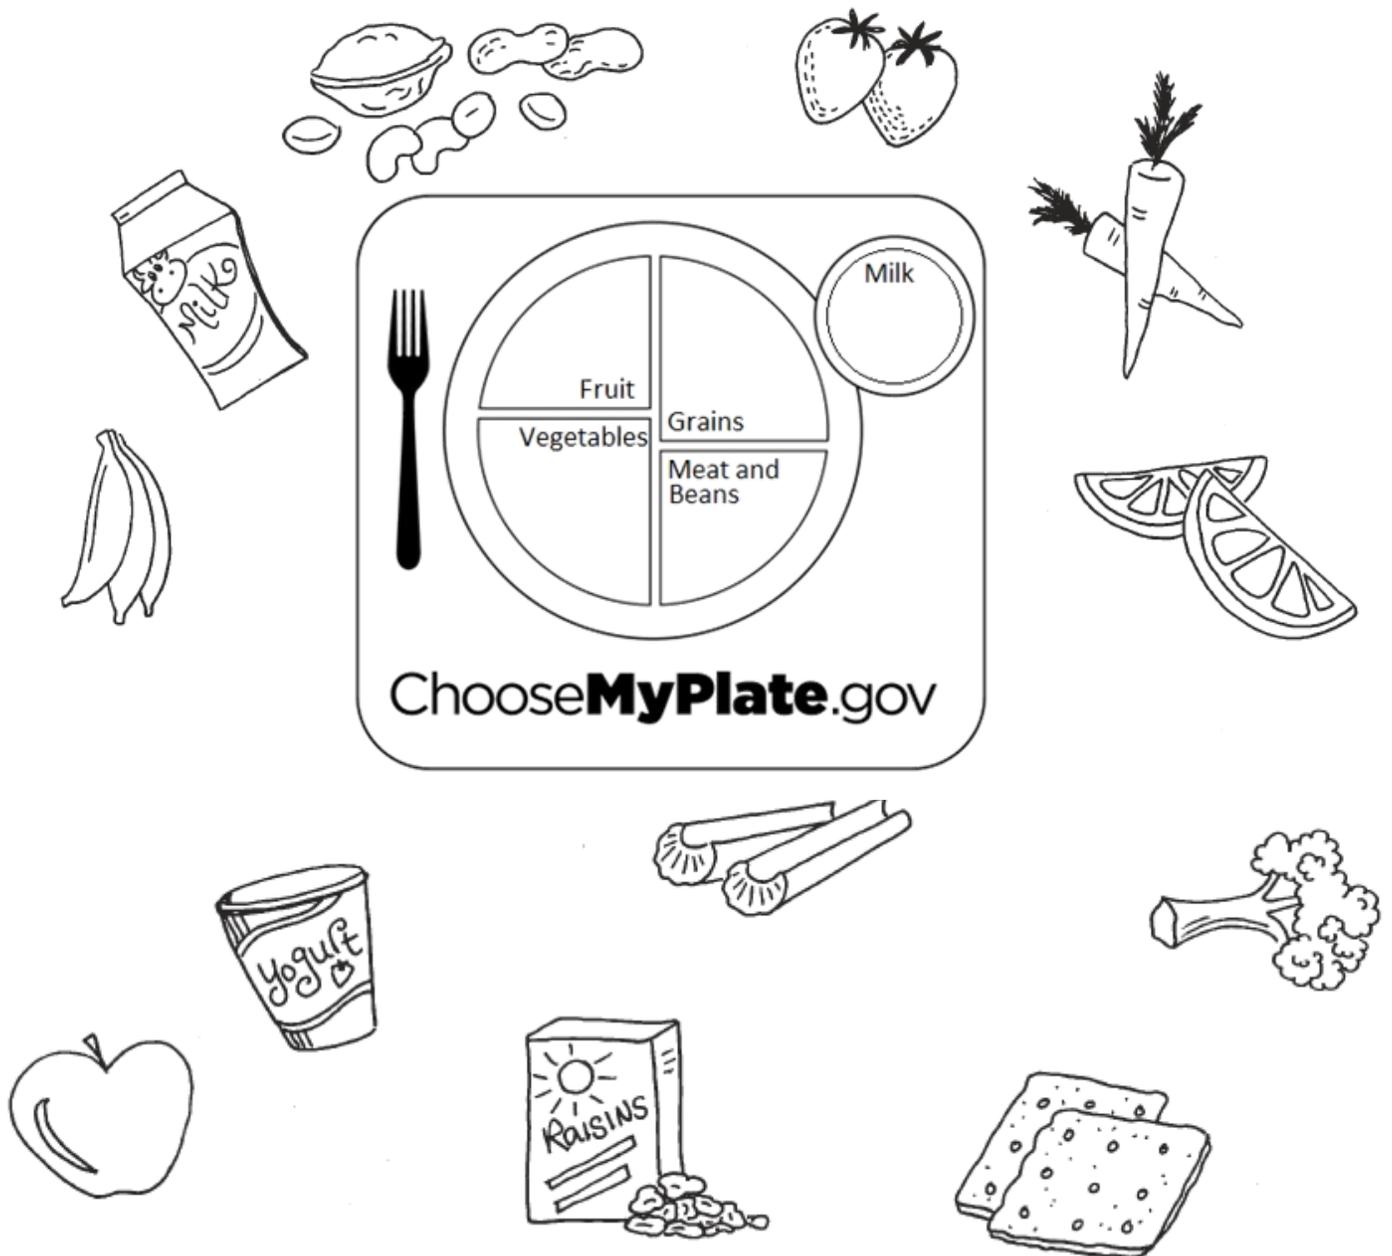

Healthful snacks are important every day!

Make

Your own trail mix. Take it with you on adventures or eat it after school.

The great Snack Match

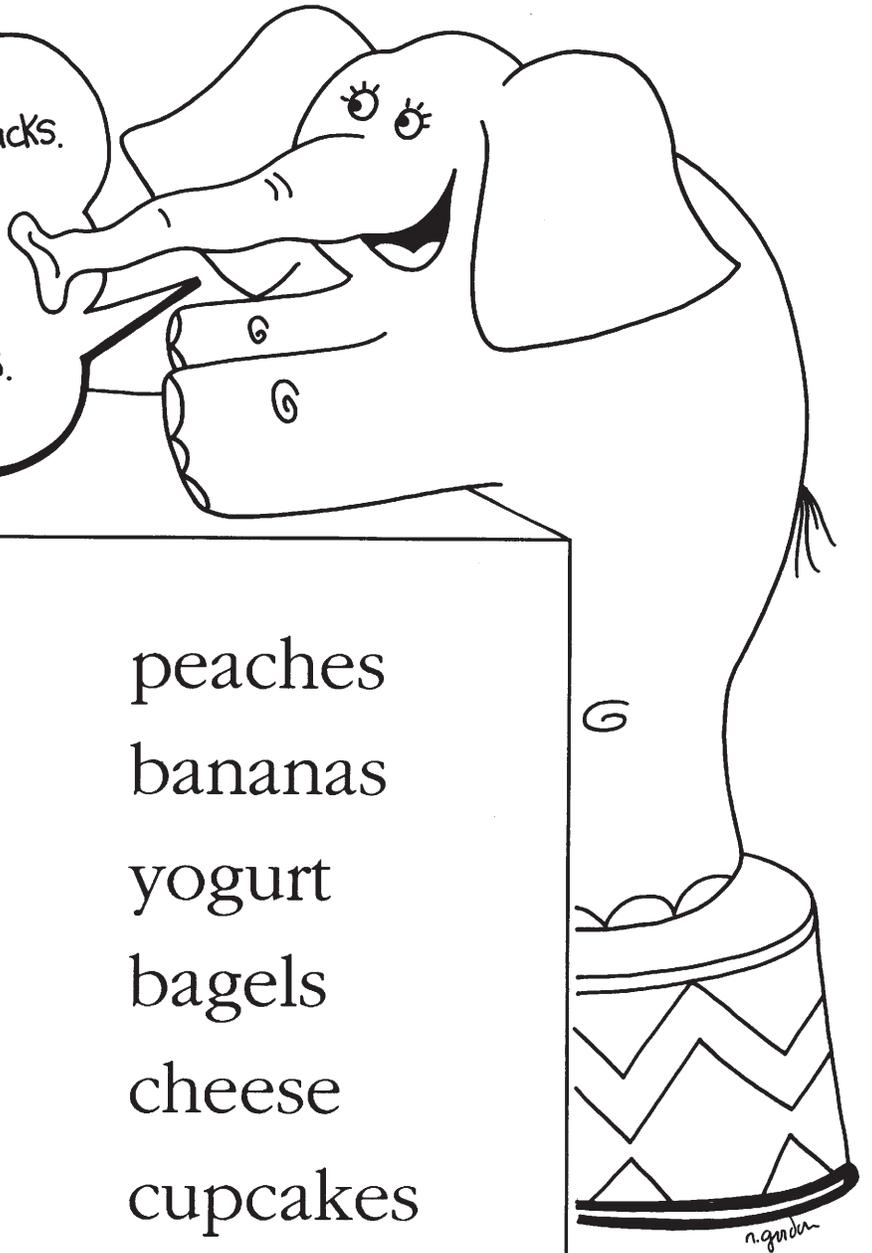

Draw a line to match the snacks to the
MyPlate groups .

Healthful and Caution

Snacks

There are healthful snacks and caution snacks. Circle the healthful snacks below. Draw an "X" through the caution snacks.

watermelon

peaches

orange juice

bananas

candy bars

yogurt

potato chips

bagels

cookies

cheese

raisins

cupcakes

carrots

pineapple

toast and peanut butter

Snack Happy

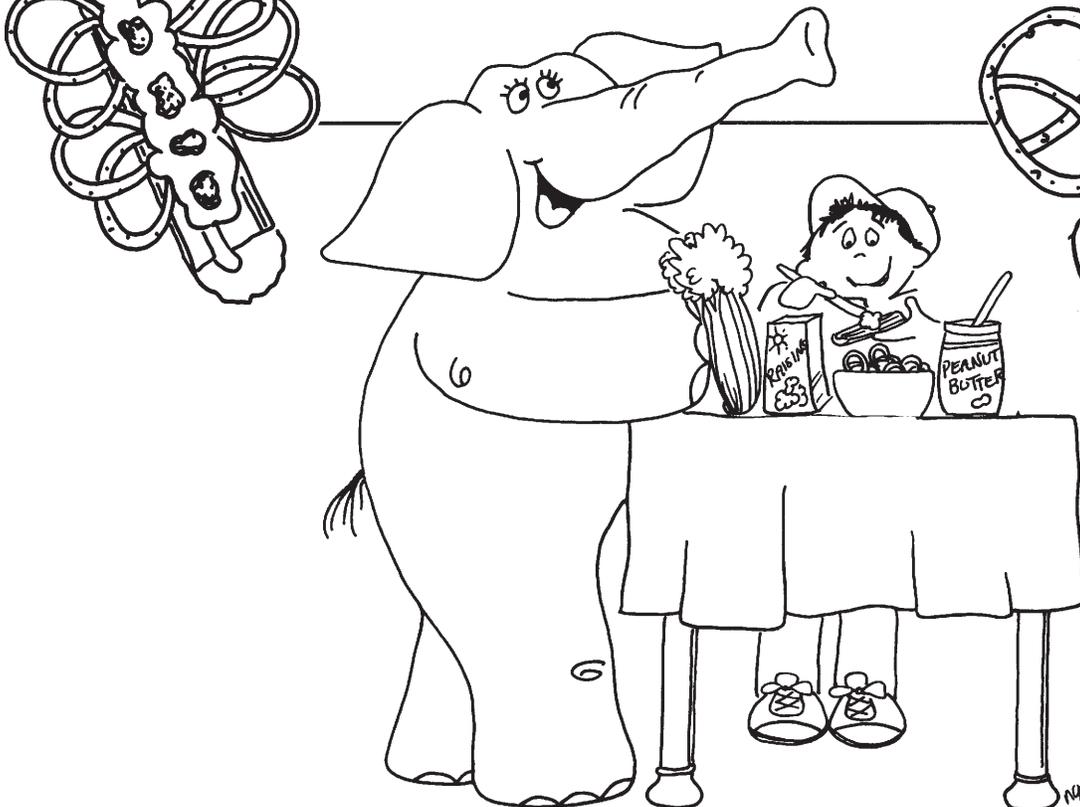

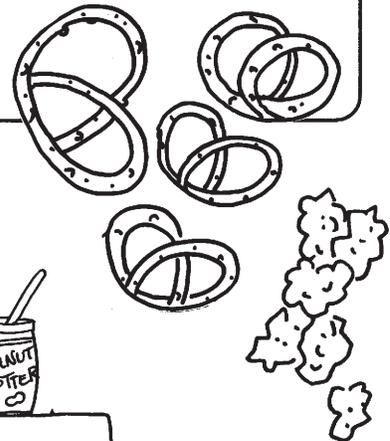

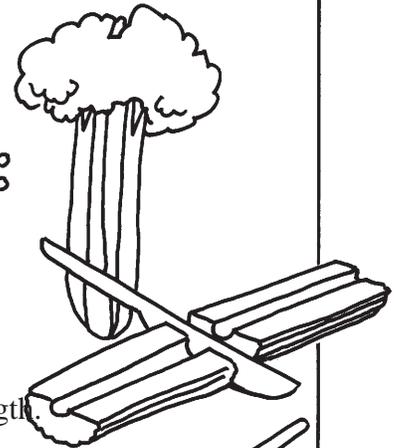

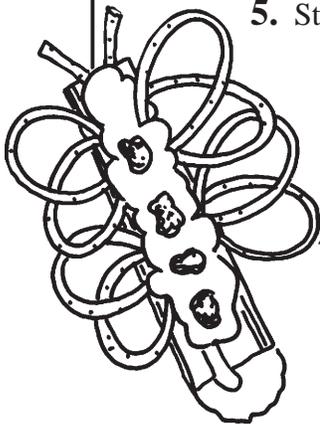

Butterfly Bites

Here's what you do:

1 stalk celery
small pretzel twists
Raisins
Peanut butter

1. Wash celery stalk. Cut in half crosswise about 3 inches in length.
2. Fill each piece with 1 teaspoon peanut butter.
3. Add 4 pretzels for wings.
4. Use pieces of pretzels for antennae.
5. Stick raisins into the peanut butter for spots on the butterfly.

Calories: 99 for 1 large butterfly

Funny Face Crackers

Here's what to do:

1 tablespoon peanut butter or unsweetened applesauce
 1 large graham cracker or 1 whole grain rice cake
 1 tablespoon shredded carrot
 4-6 raisins
 1 grape cut in half

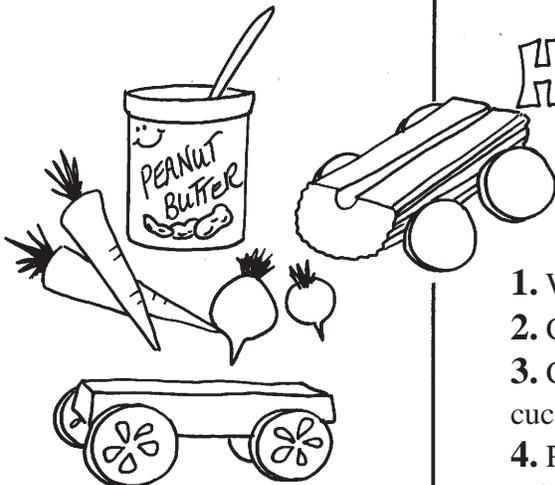

1. Spread peanut butter or applesauce on in the shape of a face.
2. Sprinkle grated carrot for hair.
3. Place raisins for mouth & eyes.
4. Use grape for nose.

Source: Modified from a recipe by K-State Research and Extension, Kids aCookin', <http://www.kidsacookin.ksu.edu>

Veggie Cars

Here's what to do:

1 celery stalk or carrot
 Assorted small vegetables
 Peanut butter

1. Wash vegetables.
2. Cut 3-4 inch celery stalk or carrot to make the car.
3. Cut four veggie slices to make the wheels (radish, cucumber, carrot, pepper, or cherry tomato).
4. Place peanut butter between the veggie circles and the celery or carrot.

Safety tip: Use a cutting board and small sharp knife to cut veggies.

Banana Yogurt Shake

Here's what to do:

1 cup fat free milk
 4 small bananas, peeled
 1 cup low fat plain yogurt
 1 tsp vanilla
 tsp cinnamon
 1/8 tsp nutmeg
 1 cup ice cubes

1. Combine all ingredients except ice cubes in blender or food processor; process until thick and creamy.
2. With motor running, add ice cubes; process until smooth.
3. Pour into glasses to serve.

Makes 4 servings.

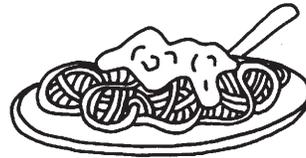

Source: CDC, <http://apps.nccd.cdc.gov/dnparecipe/>
 Calories: 105 for 6 ounce (3/4 cup) serving.

Get ready, Get

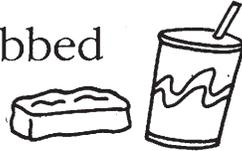

Foodella and Max were getting ready for the great in-line skating race. Foodella made sure they had all the equipment.

Foodella had a plate of pasta for lunch.

Max was too excited to eat.

He grabbed

All the contestants were ready.

Max was sure he could win with the healthful habits Foodella had taught him. The gun went off. The race was on!

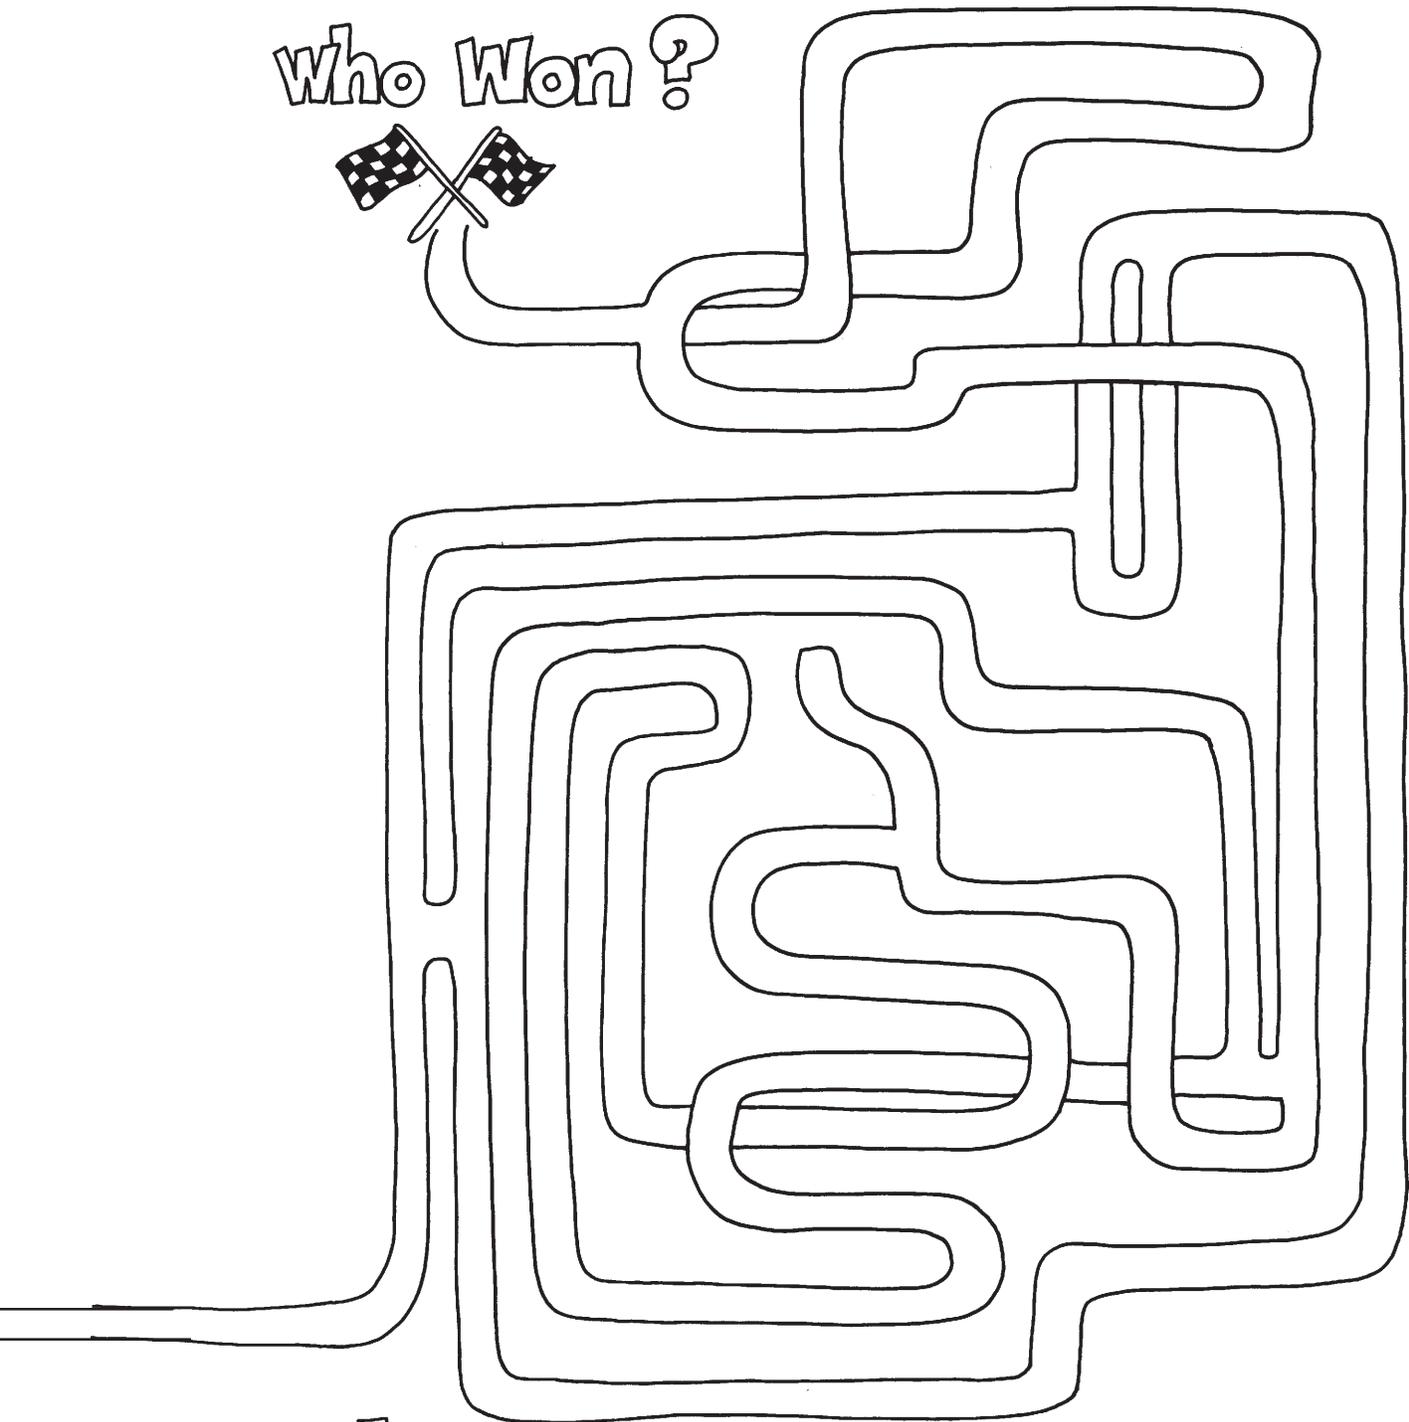

Who ate a better meal before the race?

Why did Max start off with a burst of speed and then slow down?

Set... GO

Who Won?

What would you do to prepare for a race?

Good Manners are fun!

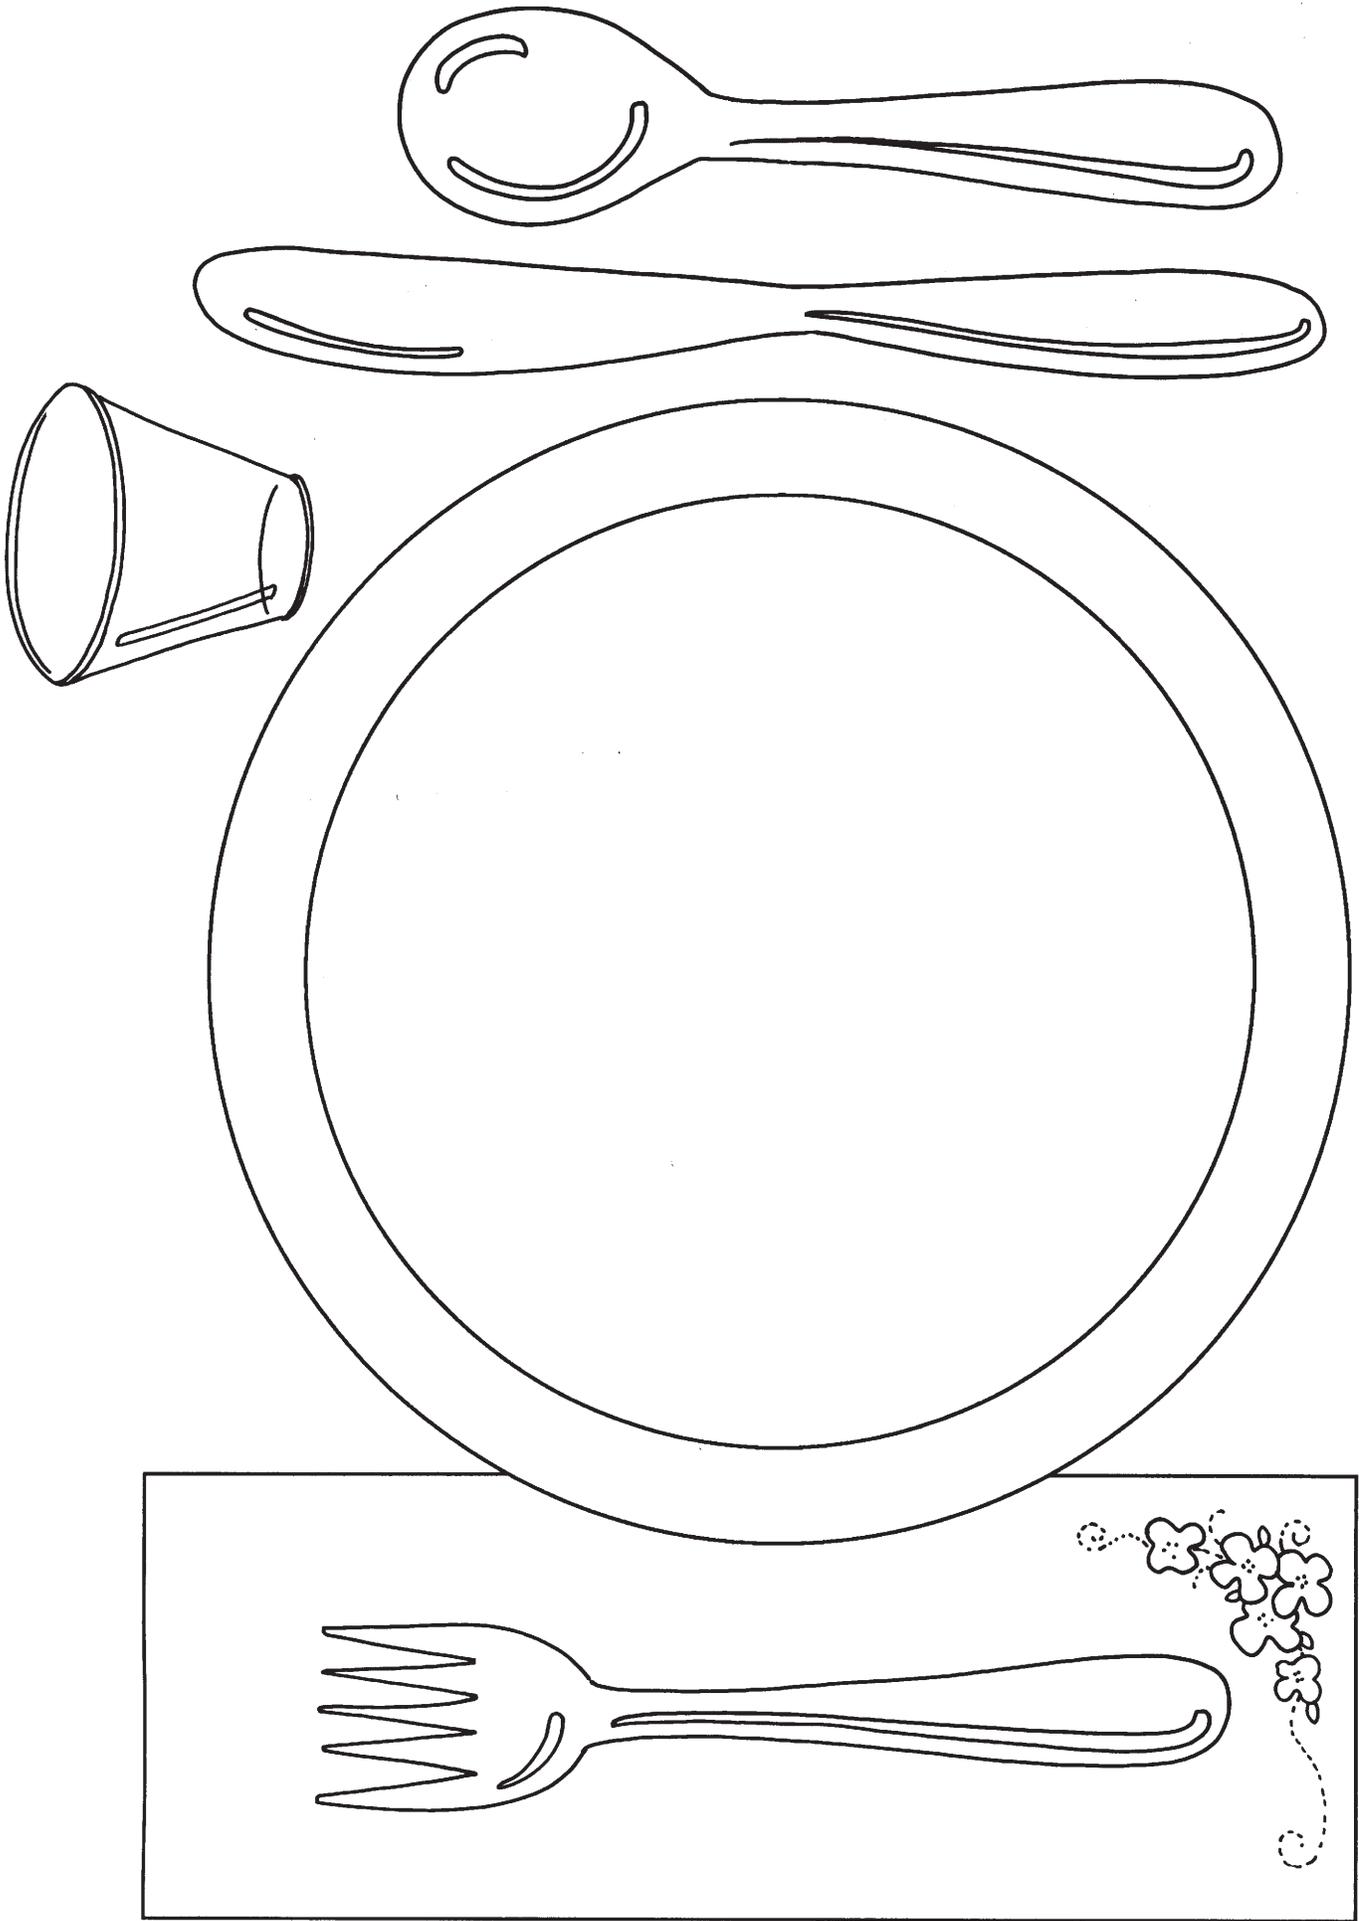

Mealtime can be fun. Good manners are a must at meal time. It is polite to chew with our mouths closed. Our napkin is placed in our lap. We wipe food from our mouths with a napkin.

I love to eat with my family. We talk about school and how well I am playing baseball. I help set the table before eating, and clear the table after eating.

Would you like more potatoes?

Yes, please, Foodella.

This is an example of how to set the table. Fork and napkin go on the left, knife and spoon on the right. Practice at home.

Max's Manners

Good manners
make eating
FUN.

Put a green star ★
by the manners
you should use.

I throw food.

I stay at the table.

I grab food from other plates.

I talk with my mouth full.

I chew with my mouth closed.

I say "please" and "thank you."

I yell during meals.

I clean up after myself.

I say "yuck" to food I do not like.

Good manners

Handwriting practice lines consisting of 10 sets of three horizontal lines (top solid, middle dashed, bottom solid).

Manners that need improvement

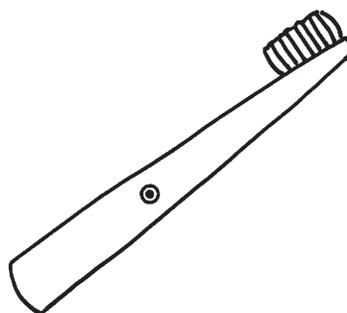

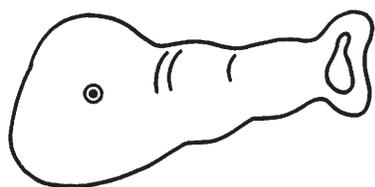

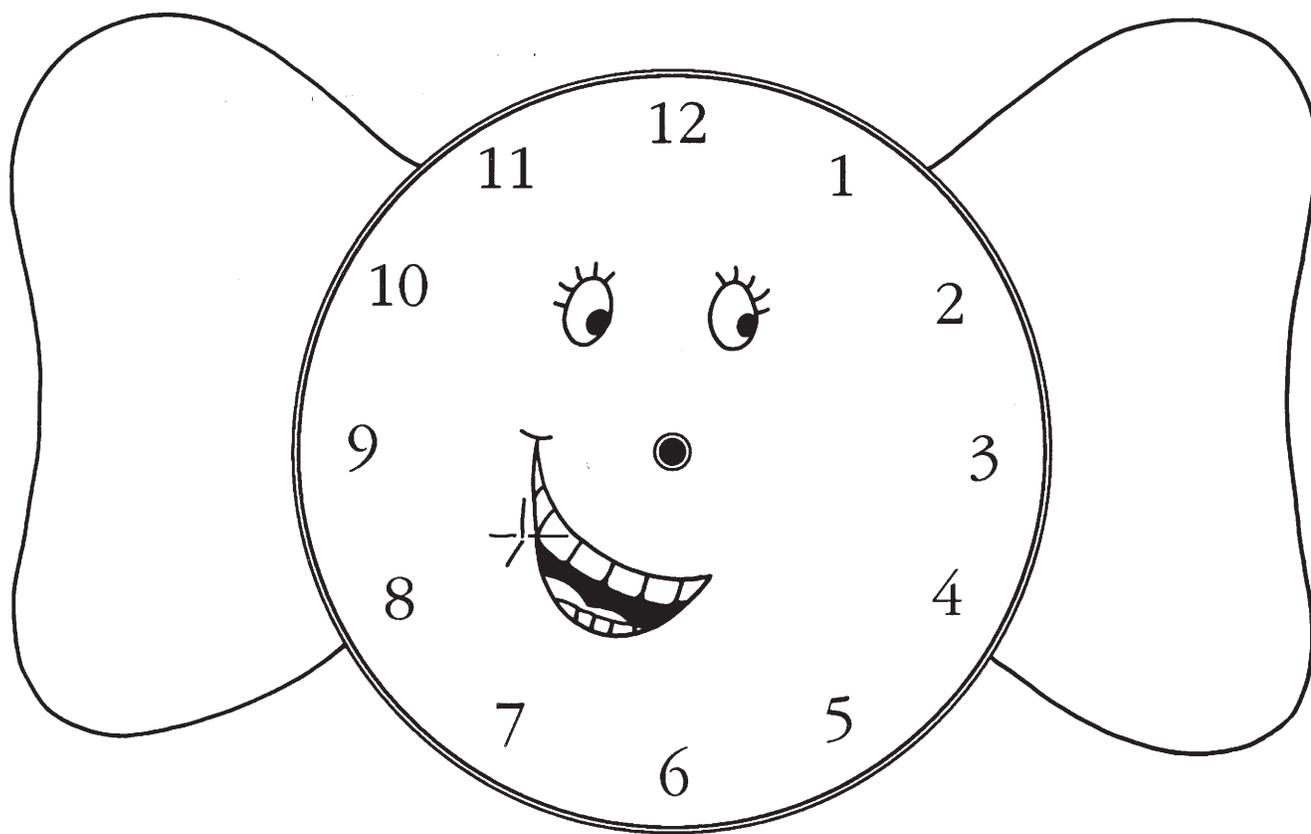

Handwriting practice lines consisting of 10 sets of three horizontal lines (top solid, middle dashed, bottom solid).

After meals is the Time to Brush

Cut out the clock face and hands below. Punch a hole in the center with a metal brad attaching the trunk and tooth brush for hands.

Point hands to the next time you should brush.

Hang your clock in the bathroom at home to remind you when it is time to brush your teeth.

A World of Food

Food is an important part of every country. Each country has its own food. Since the United States is made up of people from all over the world, we not only eat American food, but we enjoy the same foods people from other countries eat.

Spaghetti _____ **Italy**

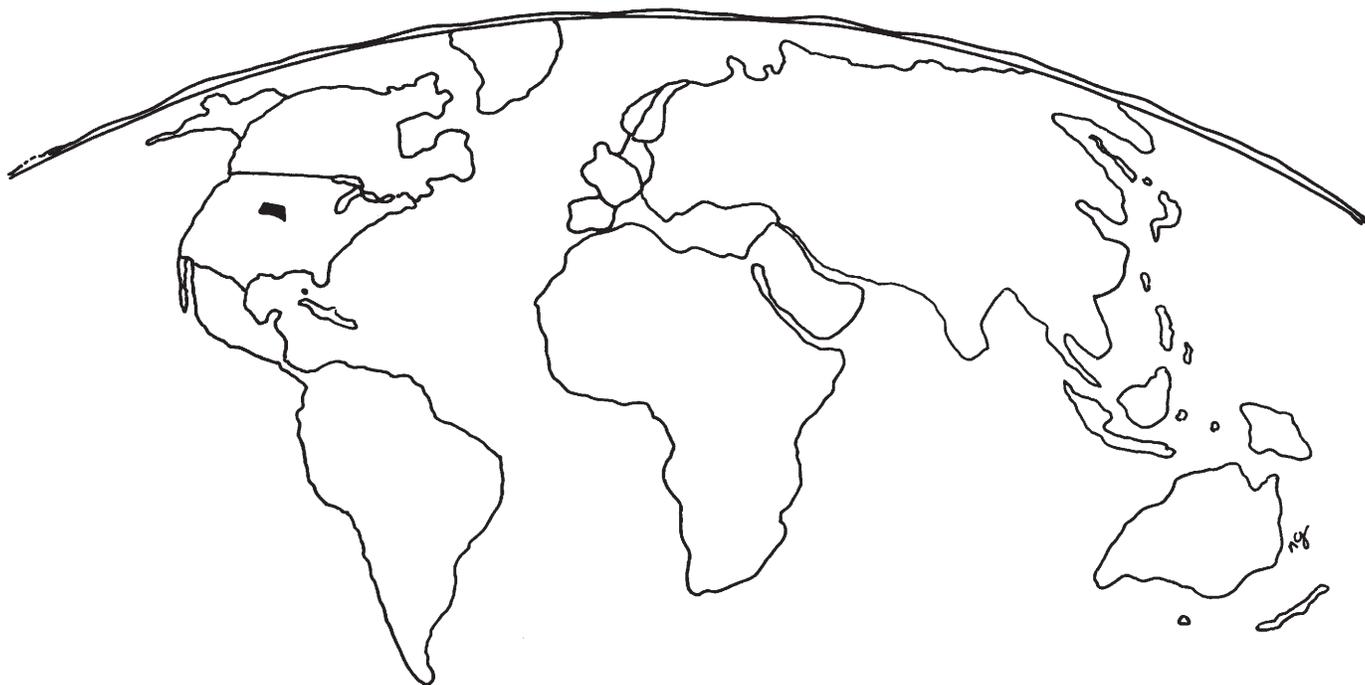

Steamed Rice _____ **China**

Gyro _____ **Greece**

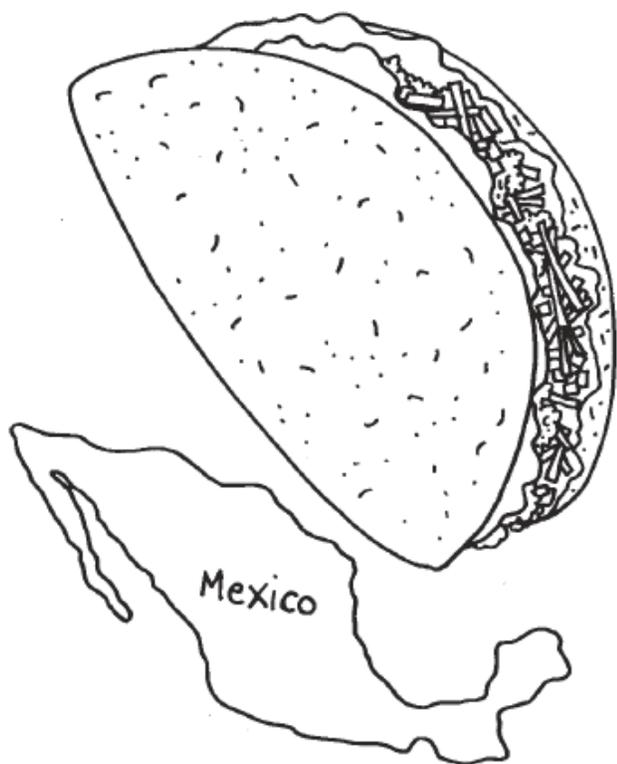

Taco _____ **Mexico**

Sushi _____ **Japan**

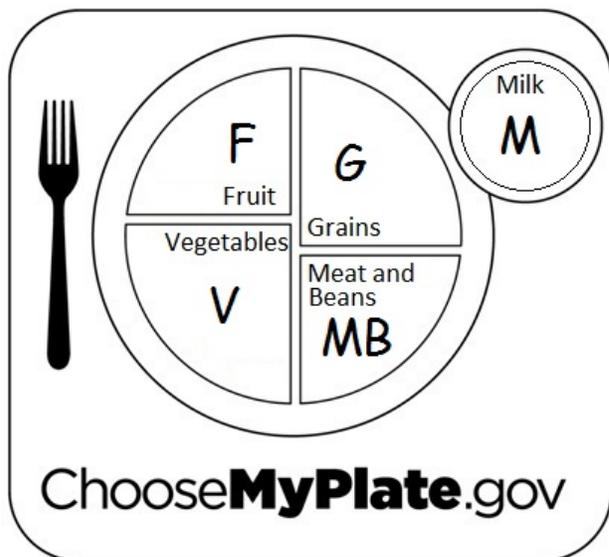

Yogurt _____ **North Africa**
or Egypt

South of the Border

The most famous Latin American food is the taco. It is made of a tortilla, beef, beans, tomatoes, lettuce, cheese, avocado, raw onion, and chilies.

- _____ tortilla
- _____ beef
- _____ beans
- _____ tomatoes
- _____ lettuce
- _____ avocado
- _____ onion
- _____ chilies
- _____ cheese

Every Color Group

is in a taco.

Name

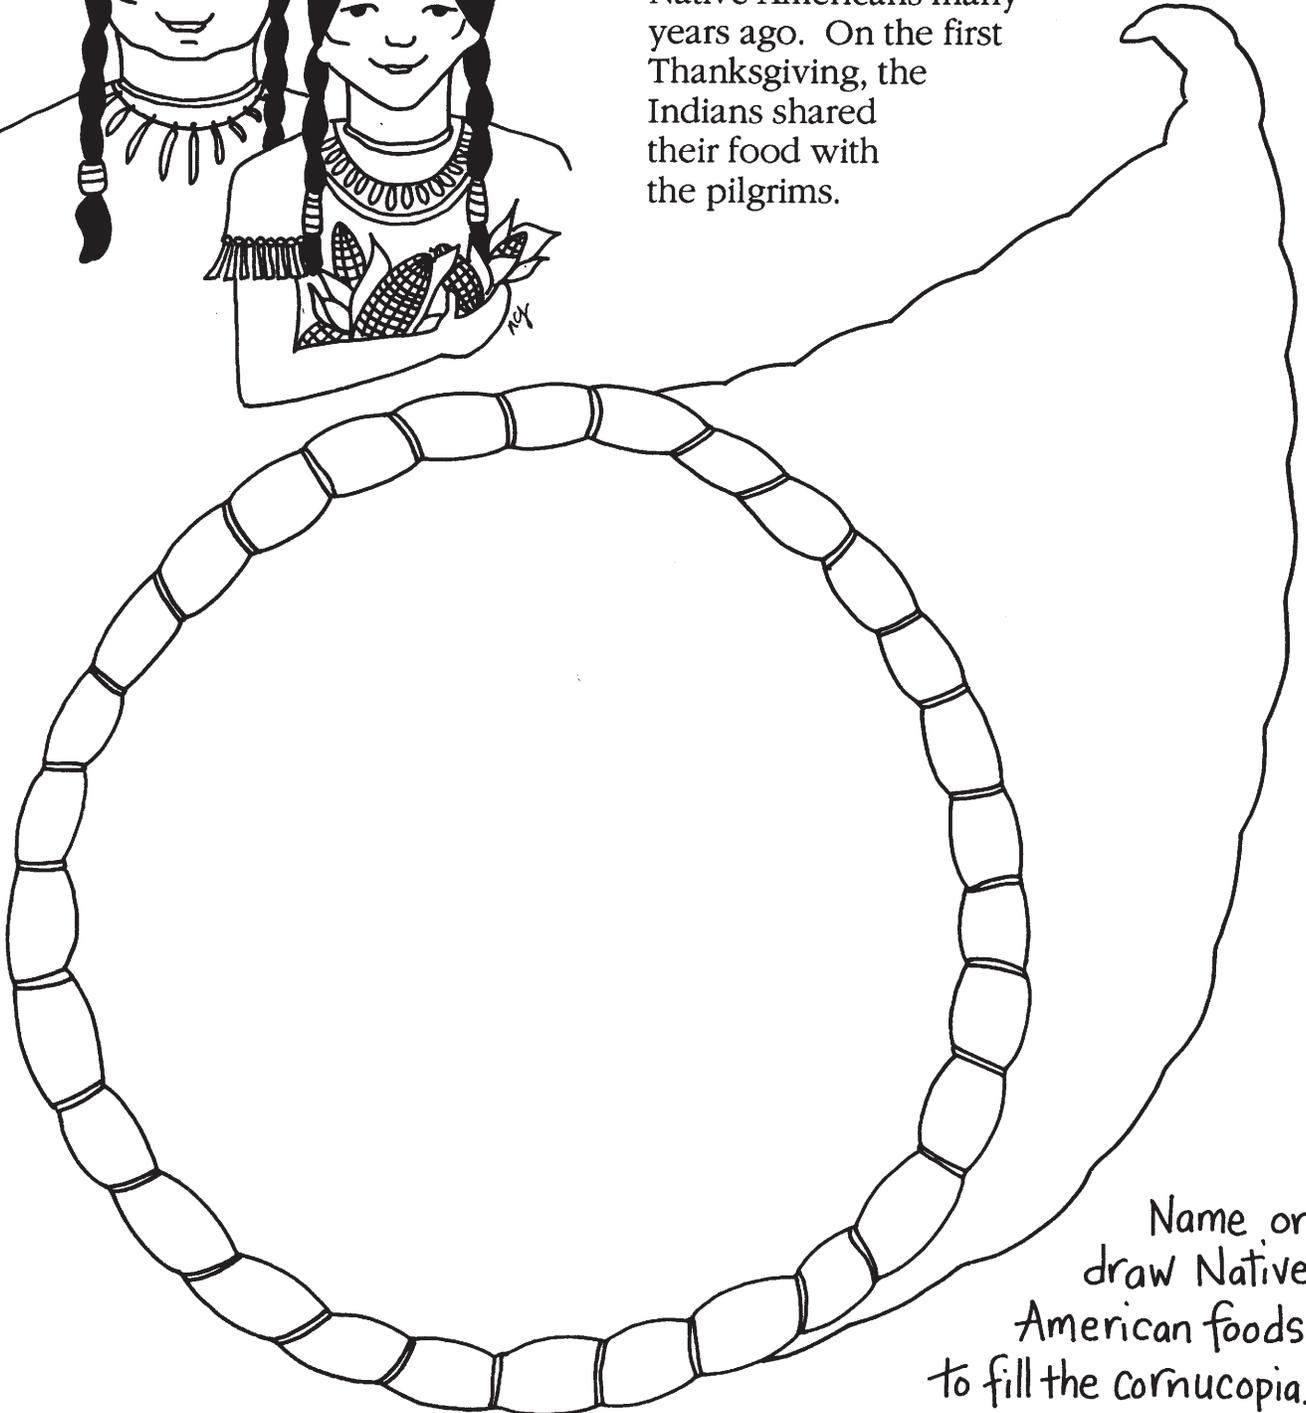

the food group of each ingredient
in a taco by writing the correct
food group letter(s) by each.

Native Americans Share

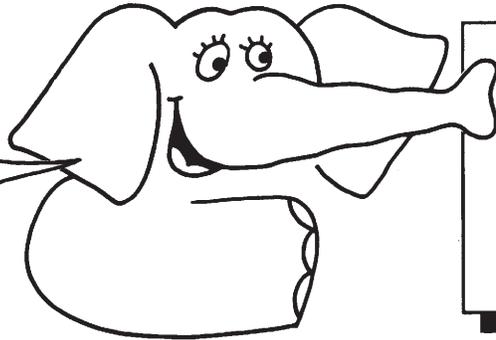

Many of the vegetables we eat today, such as corn, beans, and squash, were first grown by Native Americans many years ago. On the first Thanksgiving, the Indians shared their food with the pilgrims.

Name or draw Native American foods to fill the cornucopia.

Where in the World

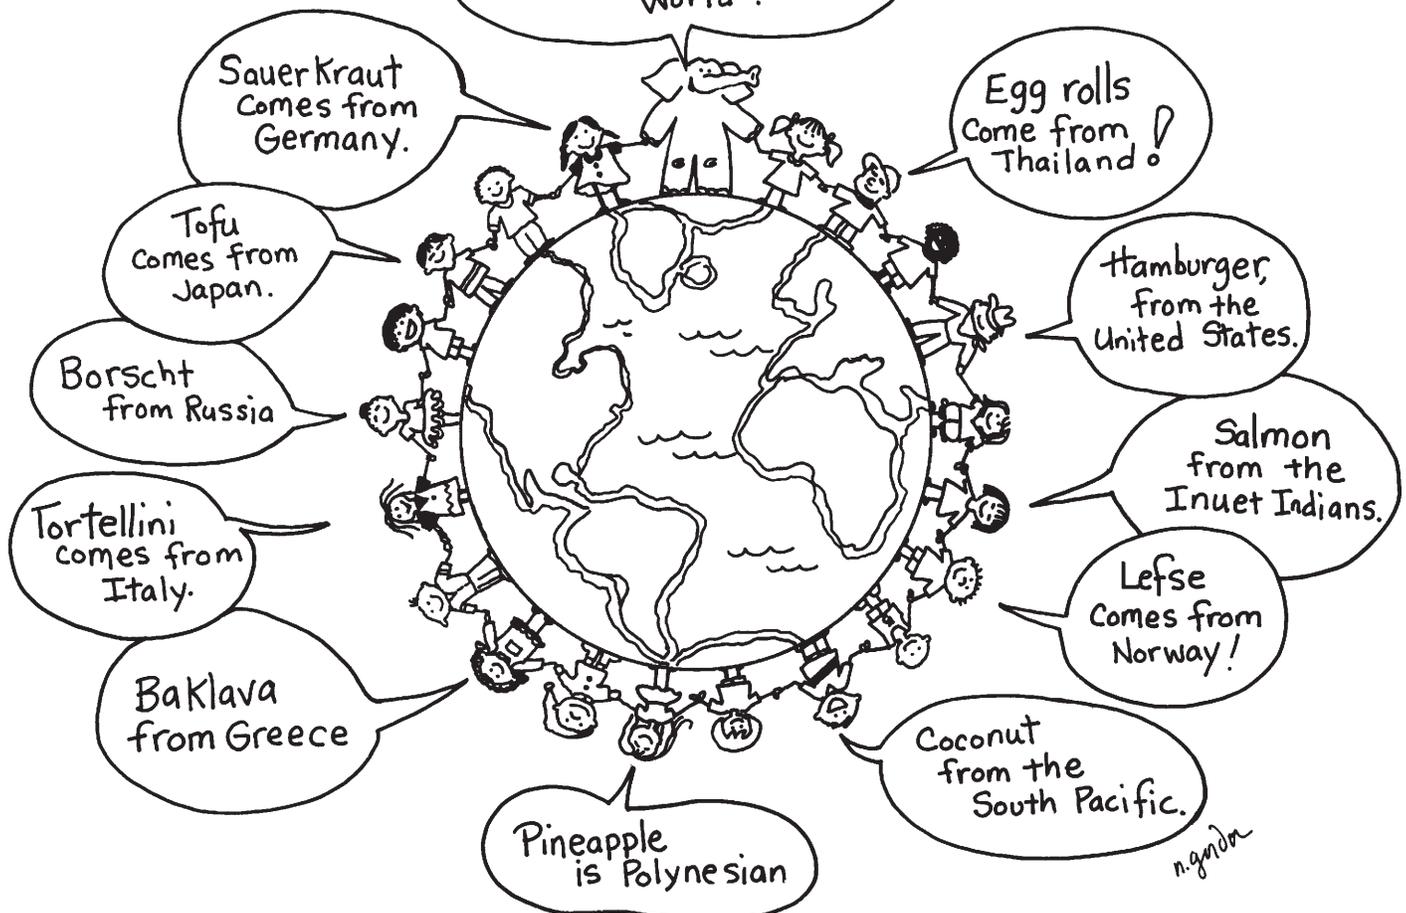

These foods were all first grown in North or South America.

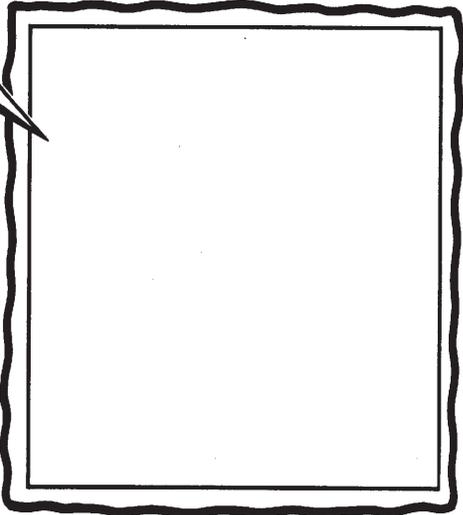

- tomatoes
- white potatoes
- paprika
- turkeys
- cocoa beans

It is important to respect people from different nationalities, and try some of the foods they like to eat. One or more of these foods just might become a favorite of yours. And, if you don't care for a certain food, you may politely say "no thank you".

Do you know...
Foods come from different parts of the world?

When I Grow UP...

Eating healthfully will help me grow into a healthy adult!

I want to be

Things I want to do

Places I want to go

FANTASTIC FINISH

You will always finish first when you eat healthy foods from all of the MYPLATE food groups and get plenty of exercise. Go to these websites for more healthy information www.MyPlate.gov and www.healthysd.gov
